SUBJECT: State Plumbing Apprenticeship Advisory Committee meeting

DATE: Thursday, May 9, 2019

TIME: 10:00 AM

PLACE: Mid-State Technical College – Stevens Point
1001 Center Point Dr.
Stevens Point, 54481, Rm CE-634

TENTATIVE AGENDA

1. Call the meeting to order.
2. Distribute the sign-in sheet. Introduce attendees.
3. Review the roster.
4. **Old Business**
 - a. **For action:** approve the minutes
 - b. Assessing applicants with Accuplacer Next Generation
 - c. Implementing revisions to CFR 29.30 (AA/EEO requirements)
 - d. Federal grants to expand "registered apprenticeship"
 - e. 27th Biennial Apprenticeship Conference Follow--Up
 - f. Updates to www.WisconsinApprenticeship.org
 - g. Department of Corrections registered apprenticeships
 - h. Other
5. **New Business**
 - a. 2019 National Apprenticeship Week
 - b. BAS personnel changes
 - d. Other
6. WTCS Update
7. Review the program participants.
8. Schedule the next meeting.
9. Adjourn.

Draft Minutes of the
Plumbing
State Apprenticeship Advisory Committee

September 21, 2018
UA Local 434 Training Center
Mosinee, WI 54455

Members Present	Employer/Organization
Breitlow, Christina	UA Plumbers Local 75
Busch, Michael	UA Plumbers Local 75
Cartagena, Alaina	UA Plumbers Local 75
De Young, Carol	Countryside Plumbing & Heating, Inc.
Hersey, Mark	J.F. Ahern Company
Huiting, Mark	Bassett Mechanical, Inc.
Schedler, Keith	Don's Plumbing Service, Inc.
Members Absent	Employer/Organization
Balke, Brian	EGI Mechanical
Breitlow, Steve (Co-Chair)	UA Plumbers Local 75
Callies, Dan	Oak Creek Plumbing
Clark, Roger	Plumbers Local 118
Flory, Tyler	Plumbers & Fitters Local 434
Gain, Greg	United Mechanical
Ignatowski, Chris	Plumbers & Fitters Local 434
Jones, David (Co-Chair)	Dave Jones Inc.
Pertzborn, Jesse	H.J. Pertzborn Plumbing & Fire Protection
Rozga, Bill	Rozga Plumbing & Heating Corporation
Consultants & Guests	Employer/Organization
Abbott, Nick	Bureau of Apprenticeship Standards
Cattelino, Mike	Fox Valley Technical College
Chacos, Kim	Madison Area Plumbing JAC
Emrick, Leigh	Associated Builders and Contractors
Johnson, Al	Local 118
Johnson, Joshua	Bureau of Apprenticeship Standards
Korn, Gary	UA Local 434

Consultants & Guests	Employer/Organization
Mayek, Mandy	Mid-State Technical College
Iwanski, Vince	Northcentral Technical College
Smith, Owen	Bureau of Apprenticeship Standards
Wenger, Scott	UA Local 400
Walsh, Julie	MAPC
Zastrow, Wes	Plumbers Local 75

1. The meeting was called to order at 10:00 a.m. by Owen Smith in conformity with the Wisconsin Open Meeting Law.
2. The sign-in sheet was distributed.
3. The committee reviewed the current roster. The committee welcomed Mark Hersey, who replaced Joe Brenner on the Employee side. The vacancy on the Employer side of the committee will be filled by Associated Builders & Contractors.

4. Old Business

a. Review the follow-up items from the previous meeting.

i. The committee approved the minutes as written.

ii. How is accepting ACT scores progressing?

Owen reviewed that the state committee requested to review how many applicants submit passing ACT scores to determine whether its required minimum scores should be modified.

Representatives of several joint apprenticeship committees reported approximately 30% of applicants submitted ACT scores in lieu of taking the Accuplacer and nearly all applicants passed.

Leigh Emrick reported the same: approximately 30% of applicants to Associated Builders & Contractors' program submitted ACT scores; and nearly all applicants passed.

Al Johnson reported that many applicants ask for how long their scores will be valid. Scores are valid for five years, Owen replied.

A local committee representative asked if applicants that do not pass some subjects can retest only those subjects or if they must retake the entire battery. Josh Johnson replied the decision is at the discretion of the local committee. Representatives of Local 75 and Mechanical Contractors Association shared that their organizations require applicants to retest the entire assessment.

A local committee representative reported that Accuplacer Classic will be replaced by Accuplacer Next Generation in January 2019. Mike Cattelino shared that Fox Valley Technical College has worked with its general education department to develop a crosswalk between Classic and Next Generation for the college's admission process. The crosswalk is based on local data and reviews.

Josh stated that the Bureau will issue guidance on Accuplacer Next Generation in January 2019 and will discuss the assessment with all state construction committees at their 2019 spring meetings.

iii. Twenty-year report on apprentice and employer totals

Owen reviewed that the state committee requested a historical report of year-end totals of apprentices and employers for the past 20 years. He reported he was unable to retrieve the data because the database query is not working. The Department of Workforce Development's programmers are researching the error and the solution.

b. Implementing revisions to CFR 29.30 (AA/EEO requirements)

Josh reported that the Bureau has yet to receive guidance from the U.S. Department of Labor. The Bureau projects it will receive the guidance before the committee's 2019 spring meeting.

Several apprenticeship training representatives (ATRs) either retired or resigned. Therefore, the new ATRs, as well as senior ATRs, received refresher training in AA/EEO policies and procedures, and have been catching up on compliance reviews for sponsors with five or more apprentices.

Last, the Department of Workforce Development and the state legislature have been drafting related revisions to the state administrative rules governing registered apprenticeship.

Attendees did not have questions or comments.

c. Federal grants to expand "registered apprenticeship"

Josh reviewed that the Bureau received three federal grants to expand registered apprenticeship in Wisconsin: WAGE\$ grant; state expansion grant; and state accelerator grant.

i. WAGE\$

The \$5 million WAGE\$ grant has met or exceeded all performance metrics except one: enrollments in new registered apprenticeships developed through the grant. WAGE\$ expanded existing apprenticeships in advanced manufacturing to additional technical colleges throughout the state; and increased enrollment of women and minority apprentices. Additionally, the grant has been largely successful in expanding registered apprenticeship into new industries; the Bureau developed new registered apprenticeships in advanced manufacturing, health care, and information technology occupations. For example, the new Data Analyst registered apprenticeship will officially launch during National Apprenticeship Week 2018.

However, enrollments in industries' first registered apprenticeship are commonly slow because employers are unfamiliar with the training method. Contrastingly, enrollments grow quickly in new registered apprenticeships in industries that already use the training method.

Attendees did not have questions or comments.

ii. State expansion grant

The expansion grant is proceeding well, too. The initial award was \$1.8 million; the Bureau recently received an additional \$1.8 million award; and the Bureau may receive a third award next fiscal year. The grants two goals are to expand registered apprenticeship in the biotechnology, construction, and financial services industries, and to recruit and retain women and minority apprentices.

The first goal is proceeding well: development of the Biotechnology Laboratory Support Technician program began; and the Financial Services Professional program launched in summer.

The second goal is proceeding slowly. Bureau management met with several major construction contractors to discuss how to approach increasing recruitment and retainment of women and minorities. The Bureau was informed that major projects are meeting their recruitment and retainment requirements and there is "no problem." The Bureau will re-strategize this winter; it views recruiting and retaining women and minorities not as a failure of local committees but as an opportunity for them. Therefore, the Bureau is very focused on providing local committees with the resources they need to conduct intentional outreach ahead of hiring season.

Last, the expansion grant will fund a new outreach campaign which will be launched during National Apprenticeship Week. The campaign features, in part, a new "A" logo that does not include the wrench and pencil that define the current logo. The new logo was inspired by much input from stakeholders that registered apprenticeship seems to be intended only for construction and manufacturing occupations. The Bureau believes the new logo will convey the breadth of sectors that currently utilize and can utilize registered apprenticeship in the future.

Attendees did not have questions or comments.

iii. State Accelerator Grant

The Bureau continues to use the state accelerator grant to increase its capacity to administer the state's registered apprenticeship system. The accelerator grant has been used to train ATRs in consultative sales and AA/EEO and to upgrade BASERS.

Attendees did not have questions or comments.

d. Presidential executive order to expand "apprenticeship"

Josh updated attendees on the implementation of the presidential executive order to expand "apprenticeship." He reviewed that the order refers to "industry-recognized apprenticeship programs," or IRAPs, not registered apprenticeships. These programs are being developed in response to nationwide industry concern that the process to sponsor a registered apprenticeship program is too lengthy and difficult. Josh acknowledged that the process to become a registered apprenticeship sponsor is lengthy and difficult in many states, because the states lack the staff and support. Wisconsin is among a small percentage of states with robust staffing and resources.

He informed attendees of the following developments: IRAPs will not require minimum hours for on-the-job learning and related instruction; the programs will be piloted in industries that have not used registered apprenticeship; and the programs will not target construction occupations. IRAPs will need to be certified, and the U.S. Department of Labor is currently drafting the related policies.

He concluded by reminding attendees that "much still remains to be seen," and Wisconsin's registered apprenticeship program will continue to operate "business as usual." By state law, the Bureau must approve and register all apprenticeship programs in the state.

Attendees did not have questions or comments.

e. Bureau of Apprenticeship Standards Electronic Registration System (BASERS)

Josh emphasized that BASERS is optional, not mandatory. He acknowledged that the opposite may have been communicated incorrectly. Sponsors are not required to use BASERS. Many sponsors have chosen to use it and have reported it is "easy and intuitive," so the Bureau projects that many more sponsors will choose to use it.

Josh informed attendees that BASERS now includes several new functions: sponsors can now request reassignments, un-assignments, and completions. Soon, sponsors will be able to request cancellations, too. These functions will be immediately beneficial, but quantitative data on their efficiencies will not be available until next year.

Josh emphasized that the contract processes have not changed; they've been moved online. An applicant still applies the same way, but the need for email, faxes, and paper copies have been replaced by BASERS. In addition, the online documentation BASERS provides is extremely helpful for quickly producing the apprentice documentation required for Department of Transportation jobs.

Attendees had these questions and comments:

- *Will technical colleges receive notification when an apprentice is unassigned?*
Yes, Josh replied. The contract process has not changed; it has moved online. The process is not paperless at this time, but the Bureau would like it to be in the future.
- *Does the employer or sponsor request to unassign the apprentice?*
The sponsor requests all contract actions, Josh explained. Each sponsor will designate a BASERS user that will have unique log-in credentials. Any request that does not come from the designee will be ignored.
- *What is driving BASERS? It creates more work for sponsors.*
The primary driver is to streamline the contract process for the Bureau and sponsors. Apprenticeship Training Representatives' primary duties are outreach, technical assistance, and compliance review. They are not data entry specialists. However, the old, non-electronic process of managing contracts was very time consuming and inefficient, for the Bureau and sponsors. As a result, ATRs spent too much time entering data, faxing, emailing, and driving hours to obtain a signature. BASERS was implemented to streamline the entire process. ATRs jobs are not getting easier; they are shifting to compliance monitoring and outreach.
- *Will BASERS reduce ATRs' facetime with apprentices?*
No. ATRs still provide technical assistance to apprentices in person and over phone. BASERS will not reduce ATRs' customer service responsibilities. In fact, the Bureau is considering posting professional photographs of the ATRs on its website. The ATRs are apprenticeship consultants, similar to the role of their federal counterparts. As a result of BASERS, they will have more time to perform customer service and all other duties.
- *How are local committees supposed to address the extra workload required of BASERS? ATRs and technical colleges used to perform these tasks. Volunteer members may quit.*
The duties have always been the legal responsibility of the local committee, not the Bureau or technical college, Josh stated clearly. He acknowledged that several long-standing ATRs across the state performed record-keeping and related duties for their local committees. The ATRs likely wanted to help but did so for so long that they became bogged down in keeping records and the

committees became dependent on the ATRs. Those ATRs have retired, new ATRs are in the roles, and BASERS has been implemented. So, the Bureau is enforcing consistent procedures.

Josh emphasized the Bureau takes local committees seriously and is open to helping local committees transition. However, the Bureau is firm that the local committees are responsible for the record-keeping and administrative duties, not the Bureau and technical college.

Mandy Mayek commented that Mid-State Technical College researched the policy answer to which party is responsible for records; the legal responsibility is that of the committee. Historically, the college provided various levels of support based on the individual in the college's apprenticeship support position. When the college expanded the scope of the position to outreach, something had to give. The college researched the policies and they show the committee is responsible, not the technical college. Some parties may perceive that as punitive. The college now supports some local committees to gradually transition them to independence.

- *BASERS is a fantastic system. Could it store work-hour records?*

Josh and a consultant replied that the local committees are the official repository of their work records. BASERS is intended to streamline records but implementing a work-hour record system through BASERS would entail standardizing the record-keeping forms for all sponsors.

f. Apprenticeship Completion Award Program

Josh briefly reviewed the purpose of the program and the respective totals for approved reimbursements and denied reimbursements. He noted that the total for denied reimbursements is substantially large because many apprentices request more than the maximum reimbursement. He clarified that the program will conclude on June 30, 2020.

Attendees had no further questions or comments.

g. Other

Attendees had no further questions or comments.

5. New Business

a. 2018 National Apprenticeship Week

Josh reported that National Apprenticeship Week will be November 12-18, 2018. Last year, Wisconsin hosted 46 events, which placed fifth nationally. The first-place state held 55 events. This year, the Bureau wants to take first place.

The potential to do so is high because prior year's events generated much interest and the Bureau began planning this year's events much earlier. For example, the Bureau notified high schools 30 days in advance, so they could schedule buses to transport students. In addition, the Bureau notified workforce development boards, career and technical education staff, guidance counselors, and correctional facilities.

He reviewed that National Apprenticeship Week is open to all stakeholders, so the Bureau encourages all stakeholders to host an event independently or collaboratively. Prior years' events included substantial support from construction training centers and technical colleges. This year's event will highlight the YA-to-RA bridge and registered apprenticeships in several new industries.

Josh encouraged attendees to notify the Bureau of their events so they can be included on either the public or private calendar. If the U.S. Department of Labor would discontinue coordinating the event nationally, the Bureau would likely continue to host a Wisconsin version.

Attendees did not have questions or comments.

b. 2019 27th Biennial Wisconsin Apprenticeship Conference

Josh reported the 27th Biennial Wisconsin Apprenticeship Conference will be held March 12-13, 2019, at the Madison Marriott West in Middleton, WI. The conference theme will be, "Workforce Next," i.e. recruiting and retaining unconventional and underutilized talent pools. The conference will include nearly 30 workshops, five general session speakers, and a technical assistance guide session, but not the Apprenticeship Expo. BAS will mail "Save the Date" notices soon.

The committee asked how to help planning efforts. Josh said to contact BAS Director Karen Morgan.

c. BAS website changes

Josh shared that the Bureau revised its homepage to be more user-friendly for applicants. The include the following: a quick-search menu for registered apprenticeships, by occupation or industry; clearly identifiable navigation boxes for each user group, e.g. career seeker, employer, and current apprentices and sponsors; and less text, more graphics. He added that the Bureau may add sponsor logos to the website, as suggested by a state manufacturing committee.

A consultant asked whether the Bureau has a social media presence. Josh replied the Bureau does not have social media accounts; the Department of Workforce Development maintains the accounts.

d. BAS personnel changes

Josh reported the following changes. Kathy O'Sullivan, apprenticeship training representative (ATR) for LaCrosse, retired; Milton Rogers was hired in her place. Rachell Faber, ATR for Eau Claire, and Matt White, policy analyst in Madison, accepted external positions; their replacements are projected to be hired in early 2019. The Bureau received funding from the state legislature for three additional ATR positions, which will focus predominantly on the manufacturing sector. The first of the positions, in Wausau, was filled by Stephanie Haka. The remaining two positions, in Appleton and Milwaukee, will be hired in early 2019.

Attendees did not have questions or comments.

e. Other

i. Wisconsin Apprenticeship Day in Spring 2019

A state committee reported that several industry members and DWD Secretary Ray Allen discussed having an Apprenticeship Day with the state legislature in the spring. The member asked whether the Bureau would participate. Josh replied that the Bureau would be interested in discussing the event further. National Apprenticeship Week will continue next year, but may be discontinued in future years, so it would be helpful to have a Wisconsin apprenticeship event in the spring. In addition, a spring event would align with high school graduation and youth apprenticeship recruitment.

ii. Harley-Davidson Youth Apprenticeship to Registered Apprenticeship Celebration

A state committee member shared that Harley-Davidson will host an event on September 28 that celebrates youth apprenticeship graduates' transition to registered apprenticeship. The event will feature five youth apprenticeship graduates from Milwaukee Public Schools that now work full-time for the school. The five graduates will sign registered apprenticeship contracts during the event. All registered apprenticeship sponsors in the southeastern area of the state are invited.

6. WTCS Update

Nancy Nakkoul reviewed items on the written update included in the meeting material. Attendees did not have questions or comments.

7. Program participants included 1,167 apprentices and 500 employers with contracts in active or unassigned status on September 4, 2019.
8. The committee tentatively scheduled its next meeting for Thursday, May 9, at 10:00 a.m. at the Mid-State Technical College in Stevens Point.
9. The meeting adjourned at 11:50 a.m.

*Submitted by Owen Smith,
Bureau of Apprenticeship Standards*

DWD 296: Sponsor Obligations

All sponsors

Do not discriminate based on race, color, religion, sex, national origin, disability, age (over 40), sexual orientation or genetic information

Designate an individual to oversee equal opportunity functions, maintain records, and submit reports to the Department

Perform universal apprentice outreach and recruitment, maintain a list of recruitment outlets, and provide those outlets 30-day advance notice of apprenticeship postings

Publish, post and disseminate an equal opportunity pledge, policy and complaint instructions

Ensure apprenticeship activities and facilities are free from discrimination and establish an internal process for reviewing harassment and intimidation complaints—disseminated in writing

Hold information sessions to conduct anti-harassment training, introduce apprentices program staff to equal opportunity policy, and instruct them how to file a discrimination complaint with the Department

Keep records of apprentice demographics, selection, assignment, layoff, accommodation requests, etc., for at least five years

Select apprentices through any non-discriminatory methods, so long as they are outlined in the sponsor's written standards and applied uniformly. Selection methods must also comply with the Uniform Guidelines on Employee Selection Procedures (UGESP) and not violate the Americans with Disabilities Act (ADA)

Five or more Apprentices

Maintain a written affirmative action program which includes:

1. utilization analysis to compare race, sex and ethnicity of apprentices to recruitment area
2. establishment of utilization goals for race, sex and ethnicity, if appropriate
3. establishment of utilization analyses and goals for individuals with disabilities
4. targeted outreach, recruitment and retention activities, if necessary, to meet utilization goals
5. Perform annual review of personnel processes for potential discrimination

Invite applicants and apprentices to confidentially disclose a disability, at two times during hiring process and annually

DWD 296: Implementation Timeline 2019

January 18	Emergency rule enacted
January 22	Economic impact analysis period ended. Rule draft filed with Legislative Rules Clearinghouse. Public Comment begins.
February 20	Public hearing for DWD 296 and 295
March 15	Submit to Governor's Office for approval
April 1	Rule filed with Senate and Assembly
April 15	Legislature refers rule to appropriate assembly and senate committees
May 15	Review period ends for senate and assembly committees
May 20	Rule referred to Joint Committee for Review of Administrative Rules (JCRAR)
June 18	JCRAR completes review of rule
June	First phase of sponsor requirements
July/August	Publication date of permanent rule DWD 296 and 295
January 2020	Second phase of sponsor requirements

DWD 296: Recurring Obligations

<u>Annually</u>	<u>At Compliance Review</u>	<u>As Needed</u>
<p>Update list of recruitment sources</p> <p>Review of personnel processes for selection criteria, wages, assignments, discipline, etc.</p> <p>Notice to apprentices they may update disability self-identification</p>	<p>Update written affirmative action plan</p> <p>Conduct workforce analysis for disability</p> <p>Undertake targeted outreach and action-oriented programs, if necessary</p> <p>Conduct workforce analysis for race, sex and ethnicity</p> <p>Conduct utilization analysis for race, sex and ethnicity</p> <p>Establish utilization goals for race, sex and ethnicity and conduct targeted outreach and action-oriented programs, if necessary</p>	<p>Conduct anti-harassment training and share EEO policy at orientation and periodically</p> <p>Invite prospective and new apprentices to self-identify disability status:</p> <ol style="list-style-type: none">1. During apprenticeship application process2. After acceptance into program, but before start date

WAGE\$ Apprentices Spring Committee Update March 2019

The Wisconsin Apprenticeship Growth and Expansion Strategies (WAGE\$) grant is a 5-year, \$5 million grant from the US Department of Labor. The purpose is to expand Registered Apprenticeship in Advanced Manufacturing and develop new programs in Information Technology and Health Care. The grant started October 1, 2015, and will conclude September 30, 2020.

WAGE\$ Apprentices by Trade

RE: Converting from Accuplacer Classic to Accuplacer Next Generation

Summary

Effective January 28, 2019, Accuplacer Classic will be fully replaced by Accuplacer Next Generation. If your local committee uses Accuplacer Classic to assess applicants, it must convert its scores to the equivalent Next Generation scores by January 28.

Converting Accuplacer Classic Scores to Accuplacer Next Generation

Classic	Next Generation	Crosswalk
Elementary Algebra	Quantitative Analysis and Statistics (QAS)	College Board, Table 4 (enclosed)
Reading	Reading	College Board, Table 2 (enclosed)
Arithmetic	Arithmetic	Contact your local technical college

National concordance tables (crosswalks) for Elementary Algebra and Reading were developed by the College Board. They are enclosed for your use.

No national concordance table is available for Arithmetic due to insufficient data. Therefore, many Wisconsin technical colleges developed concordance tables based on local data. The tables vary by college.

Action Items for Local Committees, Effective January 28, 2019:

If your local committee uses Accuplacer Classic to assess Elementary Algebra and/or Reading:

Use the Accuplacer Concordance Tables developed by College Board (enclosed) to determine the equivalent scores on Accuplacer Next Generation scores.

For example, if your local committee requires a minimum Elementary Algebra score of 33, the corresponding QAS score on Accuplacer Next Generation would be 235 (see Table 4).

For example, if your local committee requires a minimum Reading score of 55, the corresponding Reading score on Accuplacer Next Generation would be 236 (see Table 2).

If your local committee uses Accuplacer Classic to assess Arithmetic and the minimum score was set by your respective state committee:

1. Use the Arithmetic concordance table of the technical college at which the applicant took Accuplacer Classic.
2. If the technical college does not have a concordance table, use the one from the nearest technical college to your committee.
3. If your local committee administers Accuplacer Classic in-house, use local data to determine the equivalent score.

If your local committee uses Accuplacer Classic to assess Arithmetic and the minimum score was NOT established by a state committee:

1. Do actions one through three above, OR
2. Suspend assessing Arithmetic by submitting revised local standards to the Bureau for review and approval.

If your local committee does not use Accuplacer Classic, no action is needed.

Discussion by State Committees

All state construction committees except those that use proprietary assessments will discuss Accuplacer Next Generation at their 2019 spring meetings. Please bring your questions and concerns to the meetings.

Questions

Please direct immediate questions or comments to Mr. Joshua Johnson, Chief of Field Operations, at 608-266-3132 or Joshua.johnson@dwd.wisconsin.gov.

ACCUPLACER® Concordance Tables

Next-generation ACCUPLACER placement tests launched in September 2016 to more effectively help higher education institutions place students in classes that match their skill level. To assist institutions in transitioning from the classic to the next-generation ACCUPLACER placement tests, the College Board conducted concordance studies between corresponding classic and next-generation tests that have adequate content alignment and for which sufficient data were collected (see Table 1). Concordance tables in this document were developed based on the results of the studies.

The College Board strongly recommends that institutions use multiple academic and nonacademic factors to determine placement policies and implement predictive placement validity studies to help validate those placement decisions. Institutions should conduct validity studies as soon as sufficient data are available to confirm or adjust next-generation ACCUPLACER placement scores. This can be done using the College Board's free Admitted Class Evaluation Service (ACES) at aces.collegeboard.org.

Table 1: Next-Generation and Classic ACCUPLACER Placement Tests

Next-Generation	Classic	Content Alignment	National Concordance Tables
Arithmetic	Arithmetic	Strong	Not constructed
Quantitative Reasoning, Algebra, and Statistics (QAS)	Elementary Algebra	Strong	Table 2 and Table 4
Advanced Algebra and Functions (AAF)	College-Level Math	Moderate	Not constructed
Reading	Reading Comprehension	Strong	Table 3 and Table 5
Writing	Sentence Skills	Minimal	Not constructed

Instructions for Concoring Next-Generation to Classic ACCUPLACER

Note: Two sets of tables are available: one to concord scores from next-generation to classic ACCUPLACER and one from classic to next-generation ACCUPLACER. Be sure to use the appropriate direction – if you are starting with scores on classic and need to concord to next-generation ACCUPLACER, please see Tables 4 and 5, on pages 6 and 7 respectively, in this document.

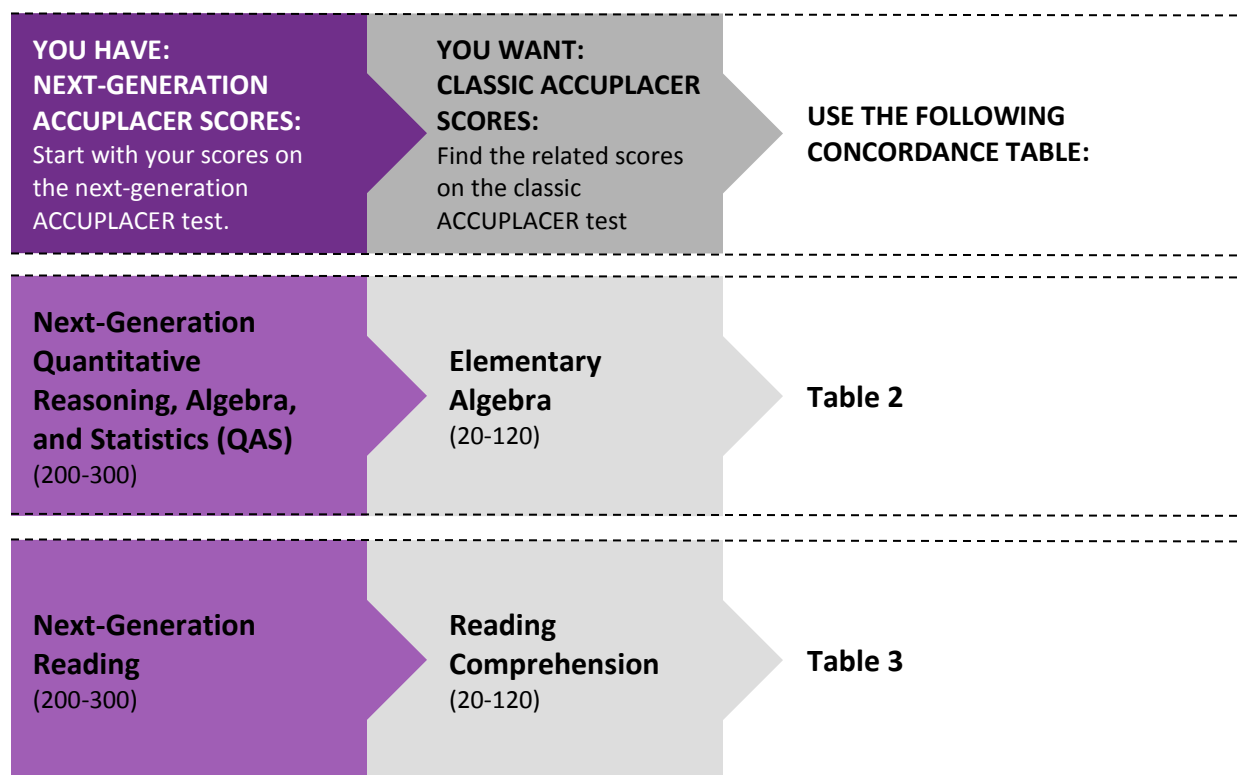

Table 2: Next-Generation Quantitative Reasoning, Algebra, and Statistics (QAS) to Classic Elementary Algebra Concordance

Next-Generation QAS	Classic Elementary Algebra	Next-Generation QAS	Classic Elementary Algebra	Next-Generation QAS	Classic Elementary Algebra
200-211	31	246	53	268	82
212-215	32	247	54	269	84
216-218	33	248	55	270	85

Instructions for Concoring Classic to Next-Generation ACCUPLACER

Note: Two sets of tables are available: one to concord scores from classic to next-generation ACCUPLACER and one from next-generation to classic ACCUPLACER. Be sure to use the appropriate direction – if you are starting with scores on next-generation and need to concord to classic ACCUPLACER, please see Tables 2 and 3 on pages 3 and 4 respectively, in this document.

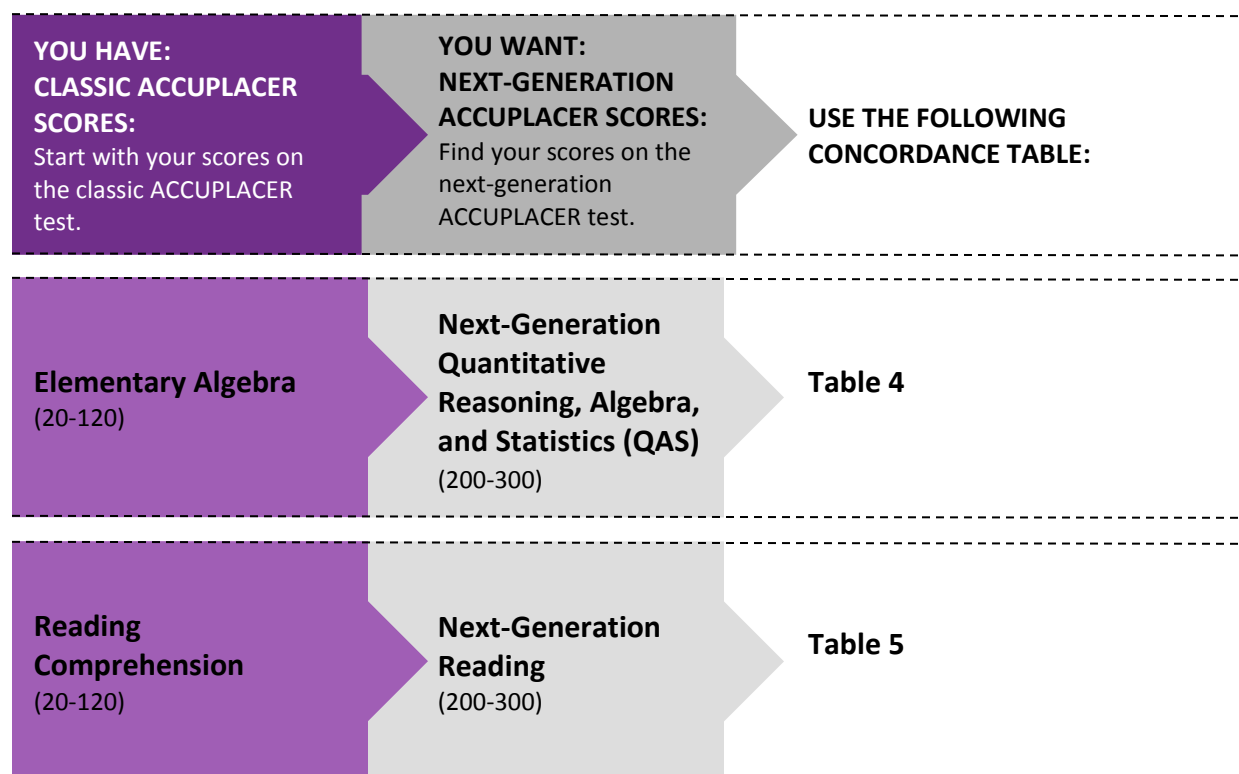

Table 4: Classic Elementary Algebra to Next-Generation Quantitative Reasoning, Algebra, and Statistics (QAS) Concordance

Appendix

Concordance Tables: Appropriate Uses

Concordance tables allow institutions to compare scores between two tests that measure similar but not the same thing. While a concordance table is one way to compare scores from different assessments, a concorded score is not a perfect prediction of how a student would perform on the other test.

The ACCUPLACER concordance tables were constructed from a sample that is intended to represent the ACCUPLACER test-taking population. Applying the concordance tables to populations of students that are demographically different from the national population may result in decisions that are not beneficial to students. When using the classic to next-generation concordance tables to establish placement scores, recognize that the resulting placements using the concorded scores may be materially different from placement using the classic scores.

The College Board strongly recommends that institutions use multiple academic and nonacademic factors to determine placement policies and implement predictive placement validity studies to help validate those placement decisions. Institutions should conduct validity studies as soon as sufficient data are available to confirm or adjust next-generation ACCUPLACER placement scores. This can be done using the College Board's free Admitted Class Evaluation Service (ACES).

Note: Two sets of concordance tables were constructed. One to concord next-generation scores to classic scores, another to concord classic scores to next-generation scores. Be sure to use the appropriate direction.

Next-Generation to Classic Concordance

Table 2 is the concordance table for Next-Generation Quantitative Reasoning, Algebra, and Statistics (QAS) to Classic Elementary Algebra. Table 3 is the concordance table for Next-Generation Reading to Classic Reading Comprehension. Use these tables when you have next-generation scores and need to concord to the classic scores. A concorded score in this context is the likely score on the classic test for a given score on the next-generation test. For each score on the next-generation test, there is a corresponding score on the classic test. However, there are scores on the classic test that do not have a corresponding score on the next-generation test.

Use Case 1: Placing Students with Next-Generation Scores Using Existing Classic Placement Scores

Tables 2 and 3 are recommended for use during transition when an institution has placement scores for classic tests but has not yet set placement scores for the next-generation test using the Bookmark method or other procedures. After a student takes the next-generation test, their score is concorded using the appropriate next-generation to classic table. The concorded score is then used for placement based on the institution's classic placement policy.

Example 1:

Melville College is a current user of the Classic Elementary Algebra placement test and transitioning to QAS. Their placement policy states that students who receive a score of 82 or above in Elementary Algebra and have a GPA of 2.6 are placed in MATH 101, an introductory credit-bearing course. Mark and Diana took QAS and both have GPAs that are above 2.6. Mark received a score of 262 while Diana received a 269. Mark's concorded score on Elementary Algebra is 73. Based on the placement policy he is not placed in MATH 101; Diana's concorded score in Elementary Algebra is 84 and therefore she is placed in MATH 101.

By submitting data from the transition period to ACES, an institution can obtain data to inform placement scores on the next-generation test that are based on the institution's student population and specific course description. A sample size of 50 students or greater is required to use ACES.

Use Case 2: Transferability of Scores Across Institutions

Classic to next-generation concordance tables are useful when students take a next-generation test and then need to transfer to a school that has not yet transitioned to next-generation or has placement policies based on classic ACCUPLACER tests.

Example 2:

Bobby planned to enroll in Greendale Community College, an institution that has transitioned to the next-generation tests. He took the reading test and received a score of 291. Later, he enrolled in Hudson College to take a sociology class. Hudson College is still using the Classic Reading Comprehension test for placing students in reading-intensive courses, where a score of 75 is deemed college-ready. Rather than having to take the classic test, Bobby's concorded score of 111 may be used to place him in any reading-intensive course at Hudson College, including an introductory credit-bearing sociology class.

Classic to Next-Generation Concordance

Table 4 is the concordance table for the Classic Elementary Algebra to Next-Generation Quantitative Reasoning, Algebra, and Statistics (QAS). Table 5 is the concordance table for Classic Reading Comprehension to Next-Generation Reading. Use these tables to concord classic scores to next-generation scores. A concorded score in this context is the likely score on the next-generation test for a given score on the classic test.

For each score on the classic test, there is a corresponding score on the next-generation test. However, there are scores on the next-generation test that do not have corresponding scores on the classic test.

Use Case 3: Transferability of Scores

Institutions have different policies regarding the length of time between when an ACCUPLACER test was taken and the time of enrollment and course placement. For institutions using the next-generation tests to set their placement scores, the classic to next-generation concordance tables will enable them to

accept students who come to their institution that have previously taken the classic test. This is especially useful for institutions using the next-generation tests but have never used the classic tests.

Example 3:

Ed intends to enroll in Barnett College which is an early adopter of next-generation tests. Barnett College requires students to score 253 and 262 on Next-Generation Reading and Next-Generation QAS are, respectively, to be placed in a credit-bearing course, and accepts scores from tests taken within the last two years. Ed took Classic Reading Comprehension and Classic Elementary Algebra at another college within the last year but decided to enroll at Barnett instead. His scores of 97 in Reading Comprehension and 103 in Elementary Algebra concord to 264 and 267. Therefore, Ed can take credit-bearing courses at Barnett College without taking the next-generation ACCUPLACER tests.

Use Case 4: Concorded Placement Scores

The College Board is committed to easing the transition between classic and next-generation ACCUPLACER tests, including providing support for establishing placement scores on the next-generation tests. The College Board provides procedure documents and materials to support a standard setting process using the Bookmark method. The College Board has also produced ACCUPLACER Skills Insight™ statements for all the next-generation tests. Skills Insight consist of statements of what students know and can do at each of the five score ranges. When compared to what students need to know and be able to do to enroll and succeed in credit-bearing courses, it is a powerful tool for establishing initial placement scores. For institutions with established placement scores on the Classic Elementary Algebra and Classic Reading Comprehension, concorded placement scores are found using Tables 4 and 5.

Example 4:

Adams College is using the Classic Elementary Algebra test to place their incoming freshmen in appropriate levels of college math. Their placement scores for levels 1, 2, and 3 are 44, 82, and 109, respectively. Using the concordance information in Table 4, placement scores using Next-Generation QAS are as follows:

- 240 to 256: Level 1 Math
- 257 to 268: Level 2 Math
- 269 or higher: Level 3 Math

WTCS System-Wide Activity Update March 2019

Wisconsin Fast Forward Awards \$250,000 to the WTCS to Support Apprenticeship Instruction

In recognition of the rapid expansion of apprenticeship programs in Wisconsin, the WTCS will administer Wisconsin Fast Forward grant funds as sub-grants to WTCS Colleges to supplement instructional costs where need has outpaced projected growth. Funds will be available from January 2019-December 2020.

WTCS-BAS 2019 Apprenticeship Completion Report

The 2019 WTCS-BAS Apprenticeship Completer Report is now available online. The report contains employment, wage and training satisfaction outcomes for apprentices completing their programs in 2016-17. It can be found here: <https://www.wtcsystem.edu/about-us/resources-publications> Or via direct link here: <https://www.wtcsystem.edu/wtcsexternal/cmspages/getdocumentfile.aspx?nodeguid=b3153b83-19ff-41d4-8527-39fe0e9c845c>

- Of the 847 completers surveyed, 330 (39%) responded.
- Respondents reported a 96% satisfaction rate for both on-the-job training and classroom instruction.
- Median salary across all trades increased to \$77,753 from \$71,624 in the prior year.
- Respondents indicating an interest in continuing education beyond apprenticeship rose to 46%, up from 43% and 34% in the two preceding years.

WTCS Apprenticeship Enrollment Trend

WTCS enrollments across all apprenticeship programs increased from 6528 to 6903 unduplicated, and 7124 to 7450 duplicated, students by the end of 2017-2018 academic year. That is a 5.7% and 4.6% increase, respectively, in one year. A current mid-year snapshot for 2018-19 is showing 7058 and 7154 enrollees. Confirmed actual enrollment for the 2018-19 academic year will not be available until August 2019.

Great Lakes Higher Education Corporation (under new corporate name Ascendium Education Group) Tools of the Trade Scholarships

As in the prior year, Ascendium Education Group again awarded 200, \$1500 scholarships for industrial and construction sector apprentices in Spring 2019.

Active WTCS-BAS Apprenticeship Programs, By Sector, Occupation, and College as of January 2019

The master chart of all apprenticeship programs with related instruction offered through the WTCS colleges can be found here via the following link. "Active" is defined as approved programs with enrollments in the past two years. The color-coded chart can be found on the MyWTCS website here:

<https://mywtcs.wtcsystem.edu/wtcsinternal/cmspages/getdocumentfile.aspx?nodeguid=2b3fe9c1-681d-4ceb-a612-f474b04aaa8b>
