Dear Committee Member,

I write today as an employee of Sendik's Food Markets, a retail grocer serving the citizens of Wisconsin. I am asking you to consider including our industry in Wisconsin's tier 1B of the COVID-19 vaccination plan.

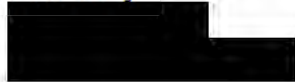

Since the beginning of the pandemic, my coworkers and I have been on the front lines serving our communities. We never shut down. We are face to face with the public 14 hours a day. There is no opportunity in our industry to work remotely.

We are the stockers, checkers, baggers, cart wipers, clerks, delivery drivers and order fillers that get food to the people of our state. We are the definition of a front line worker. We are proud of what we do and have continued to show up everyday to do our jobs despite risk of exposure to the virus from the tens of thousands of guests who come to our stores every week. Our jobs are essential to our state's food supply and we consistently have been called "heroes" for the work we have done and continue to do.

In their guidelines for COVID-19 vaccine distribution, the CDC specifically calls out "grocery workers" as essential and part of Phase 1b distribution. I am asking your committee to include grocery workers as part of Wisconsin's Phase 1b distribution plan.

Thank you for your consideration.

Sincerely,  
Paul Doty

Dear Committee Member,

Can't believe the lack of respect for the Grocers in our state. How did you get your food for your family? Because my family went to work some with their own health issues, shopped for your families, delivered to your families, had pick up services for your families, worked overtime for your families. All to keep their communities safe, and now how does the State of Wisconsin care for our families? Disappointed...not only for my family but all of the employees that have sacrificed to keep your families safe.(:

Sincerely ,  
Debbie Westlie

Dear Legislators,

I write to strongly support including inmates of Wisconsin prisons in the priority group 1B population to receive the COVID vaccine. These people are unable to avoid catching the virus. Many prison inmates have pre-existing conditions and a number of them are elderly. They can not protect themselves, and the prisons have had significant outbreaks of the virus. I am concerned about prison staff too. The conditions are too crowded to be safe.

However, the prisons already have existing systems in place to deliver the vaccines efficiently to a relatively small population. High risk for dangerous outbreaks can be easily and successfully addressed. Excellent "Bang for the Buck"!

If we wait until all the people over 70 receive vaccines, including those of us who are well off enough to protect ourselves already, there may be no one left in the prisons to vaccinate. Plus any outbreaks will inevitably spread via the prison staff to the surrounding community. This is wrong. Get the vaccines to those who can not protect themselves--and as a consequence are much more likely to pass the virus along to others, too.

Thank you for your work on this issue. Please see the sense in neutralizing these potential "hot spots" before they become a reality. Please help keep us all safe. Thank you for your concern.

Sincerely,  
Melanie Sax

The staff of our congregation operates a food pantry in Barron County. In addition to caring for our parishioners we interact with a broad segment of our population, distributing food to needy Barron County families. I would like to request that myself and our Campus Coordinator, Allison Martinson be added to Phase 1B. Thank you.

My best,

Pastor Ned Lenhart

Dear Committee Member,

I am writing to ask for your re-consideration of those in the grocery industry as you prioritize populations for COVID-19 vaccinations.

Because of my husband's job I was able to see and hear the panic in grocery store owners wondering if and when they could expect their shipments. I remember walking into my local grocery store and seeing shelves stripped and meat cases 90% empty. I listened to stories from friends in other cities dealing with the same surreal situations.

I prayed every night the warehouse workers, delivery drivers, and store personnel would stay safe from covid. Imagine if one of these groups could not perform their duties. Food wouldn't get delivered, stores would have to shut doors.

These men and women put their lives in danger to make sure the rest of us have food for our families and communities. They may not work in hospitals but they are frontline workers. They did their jobs when most of us were told to stay in our homes. If they can't do their jobs, what happens to the rest of us? I don't even want to imagine the chaos which would follow!

We now are hearing of more variants of the virus moving into the United States. So I beg you to reconsider and move our food chain workers to the next group for immediate vaccination.

Sincerely ,  
Debra Ryman

Dear Committee Member,

I am writing to ask for your re-consideration of those in the grocery industry as you prioritize populations for COVID-19 vaccinations.

Since March, I have continued to come into Sendiks and worked my shifts because we are essential, especially to our elderly clientele. We provide a shopping service for them to be able to just pull up and get their groceries. It so important to keep them safe.

Please reconsider allowing us to have the vaccine as soon as possible -- sure would hate to have grocery stores close -- how would people eat?

Sincerely ,  
DIANE KOSMIDER

Dear Committee Member,

I write today as an employee of Sendik's Food Markets, a retail grocer serving the citizens of Wisconsin. I am asking you to consider including our industry in Wisconsin's tier 1B of the COVID-19 vaccination plan.

Since the beginning of the pandemic, my coworkers and I have been on the front lines serving our communities. We never shut down. We are face to face with the public 14 hours a day. There is no opportunity in our industry to work remotely.

We are the stockers, checkers, baggers, cart wipers, clerks, delivery drivers and order fillers that get food to the people of our state. We are the definition of a front line worker. We are proud of what we do and have continued to show up everyday to do our jobs despite risk of exposure to the virus from the tens of thousands of guests who come to our stores every week. Our jobs are essential to our state's food supply and we consistently have been called "heroes" for the work we have done and continue to do.

In their guidelines for COVID-19 vaccine distribution, the CDC specifically calls out "grocery workers" as essential and part of Phase 1b distribution. We are asking your committee to include grocery workers as part of Wisconsin's Phase 1b distribution plan.

Sincerely,  
Alexander Chromy

Dear Committee Member,

I am writing to ask for your re-consideration of those in the grocery industry as you prioritize populations for COVID-19 vaccinations. The job that I do for each of my customers is my Top Priority....& have been told by many of them Thank You for being @ work & doing My Job.... They are very Appreciative for what I Do!! I let them know that it's just what I do.... I'm here to make Life Better for Them not for Me... Please reconsider your decision for the Vaccination for Essential workers Thank You!

Sincerely ,  
Lisa Christian

Dear Committee Member,

I am writing to ask for your re-consideration of those in the grocery industry as you prioritize populations for COVID-19 vaccinations.

Grocery workers are one of the most essential lower tier essentials. Grocery stores are a huge part of everyones lives, buying food and supplies for their families comfort and well-being.

We've been exposed to an immeasurable amount of people since the beginning of the lock downs. We need the vaccine to ensure we can continue running our stores as best we can during such troubling times.

Sincerely ,  
Victoria Neumann

Hello:

My husband is a grain and beef farmer. Please consider ag production workers in the next phase of the vaccine roll out. Farmers in general are an older population, have no one to fill in if they are ill, and work in conditions with limited hand-washing availability.

Many farmers are opposed to vaccination and consider the pandemic a hoax, therefore, by virtue of their rural connections, other farmers are put at risk by those who don't take precautions. Most farm spouses work off the farm in other essential occupations thus potentially exposing others to the virus; some have children attending school in-person.

Please considering allowing self employed farmers who want the vaccine to be included in the next phase of vaccination for the protection of the farmers, the food supply, their families and those their family members come in contact with through work or school.

Sincerely,

Mary A Bomkamp

Dear Committee Member,

I am writing to ask for your re-consideration of those in the grocery industry as you prioritize populations for COVID-19 vaccinations.

I am high risk. Type 1 diabetic with Multiple Sclerosis.  
I love helping my community and have gone non stop since the beginning, like many others.

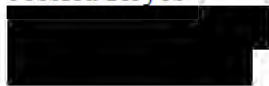

High risk employees especially in this industry deserve to be protected as the essential employees that we are.

We come in contact with thousands of people on a weekly basis.

Without the Grocery industry, communities can't feed and take care of their families.  
Including your own.

Please reconsider.

Sincerely ,  
Jessica Reyes

Hello,

I am an essential worker

I work for Woodman's food markets and have worked throughout this pandemic, in a time of great need of our community. I have worked hard to support our community members in these scary times to make sure they had access to needed supplies.

While others sheltering at home, I worked. Risking my health day in and day out. I have been spit at, coughed at, and harassed more times than I can count and have seen coworkers submit to mental fatigue over their fear of this virus.

Now I am being told I AM NOT AN ESSENTIAL WORKER! That all of my sacrifices, hard work, and abuse means nothing to you. Without me and my brethren where would you get your food, your toilet paper?

This is not fair. Why should I continue to put my and my family's health at risk?

Am I no longer the hero you referred to me as before? I come into contact with thousands of people a week to make sure they have food and essential items. How am I not considered a front line essential worker? Seriously, explain this to me, to us. Go into any grocery store and see for yourselves. Talk to the employees.

I ask you to please reconsider your recommendation and prioritize the heroes who have worked throughout this pandemic and continue to do so at great risk.

Andrew paulick, an ESSENTIAL WORKER

Dear Committee Member,

How are you even considering not qualifying grocery store workers as essential? Do you even understand how many people we have to come in contact with everyday, let alone how many anti-maskers we have to deal with on top of that? My co-workers and I put ourselves in constant conditions where any of us can be infected at any minute, and subsequently spread COVID-19 throughout our community. One of our co-workers already died from COVID-19 complications, and the fact that you would even consider us as "non essential" is an absolute joke. And after a long day of work exposed to infectious environments, many of us go home to families who have autoimmune complications, such as my father with cancer. But please, don't give grocery store workers the vaccine yet, let's see how many more people have to suffer because of a terrible decision made by a group of people who claim to have our best interests at heart. A whole year of dedicated service and possible danger to our families, and you want to rip the vaccine away from us when we are so close to feeling more safe than we have in the past year. That is absolutely shameful.

Sincerely ,  
Dylan MacFarlan

Dear Committee Member,

I am writing to ask for your re-consideration of those in the grocery industry as you prioritize populations for COVID-19 vaccinations.

When the Wisconsin's Safer at Home order went into effect back in March 2020, you emphasized the imminent threat of COVID 19, the pandemic to all our Wisconsin citizens...

“Wisconsin, this is serious, the crisis is urgent. It’s not safe to go out, it’s not safe to have others over — it’s just not safe. And it might not be safe for a while yet”  
Honestly, we were all scared, but at that point all of us, Essential Businesses and Critical Infrastructure Workers, had a job to do, and that was to take care of our community and ourselves as we went to war against this unseen enemy.

I am proud of the bravery our over 500 team members here at Metcalfe’s Market, along with all the other Essential and Critical Infrastructure Workers across our state, that put their own person lives on the line along with those that they love, as we pressed on to service this community during a raging pandemic.

Grocery workers have worked tirelessly throughout the pandemic and are as critical to our food supply as farmers. While our company takes every safety precaution possible for our team, the reality is that this team has been exposed to members of the public every day and put at increased risk of infection for nearly a year now. Even with capacity limits in place, our team of 150 – 200 employees are exposed to 2,500-3,500 customers each & every day at each of our (3) locations. Very few other Essential businesses have this type of daily public interaction during the current Community Spread stage of COVID 19 that we find ourselves in here in Wisconsin.

Grocery workers do not have the opportunity to do their jobs from home. When their role in our community requires them to be at their workplace day in & day out. It has been stressful for many of them to come to work every day, but they have endured and continued to provide a way for families in our community to have food on their tables.

Please allow this group who serve such a vital need in our community access to the COVID19 vaccine as early as possible and do not move them to group 1C.

Sincerely,  
Kenny Kemp

I'm an essential worker for a grocery store, that works directly with the public 40 hours a week. I'm also a recent cancer survivor with many underlying health conditions, and a single mom. I would like to see essential workers that work directly with the public, and have underlying health conditions that would put them at severe risk, to be bumped up to a grouping of people being able to receive the vaccine soon. Those of us that have had to make the choice between a great risk to their health, and being able to provide a roof over their children's heads, truly deserve a better fighting chance.

Thank you for your time,

Stephanie Kaether

We are the stockers, checkers, baggers, cart wipers, clerks, delivery drivers and order fillers that get food to the people of our state. We are the definition of a front line worker. We are proud of what we do and have continued to show up everyday to do our jobs despite risk of exposure to the virus from the tens of thousands of guests who come to our stores every week. Our jobs are essential to our state's food supply and we consistently have been called "heroes" for the work we have done and continue to do.

In their guidelines for COVID-19 vaccine distribution, the CDC specifically calls out "grocery workers" as essential and part of Phase 1b distribution. We are asking your committee to include grocery workers as part of Wisconsin's Phase 1b distribution plan.

Sincerely,  
Margaret Urbas

Dear Committee Member,

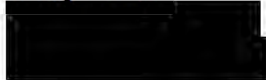

I write today as an employee of Sendik's Food Markets, a retail grocer serving the citizens of Wisconsin. I am asking you to consider including our industry in Wisconsin's tier 1B of the COVID-19 vaccination plan.

Since the beginning of the pandemic, my coworkers and I have been on the front lines serving our communities. We never shut down. We are face to face with the public 14 hours a day. There is no opportunity in our industry to work remotely.

We are the stockers, checkers, baggers, cart wipers, clerks, delivery drivers and order fillers that get food to the people of our state. We are the definition of a front line worker. We are proud of what we do and have continued to show up everyday to do our jobs despite risk of exposure to the virus from the tens of thousands of guests who come to our stores every week. Dear Committee Member,

The vaccines developed by Moderna, Pfizer, and others are our best weapon to put an end to this deadly plague. I am writing you today to ask that you include grocery store personell in phase 1b of the vaccination plan. We are, and have been, on the frontlines of this pandemic since the beginning. We are in contact with the public every hour of every day. Allow us to receive this vaccine - to protect us - to protect the public - and to protect the ones we love. Thank you. Below is the statement issued by my employer, Sendiks Food Markets.

I write today as an employee of Sendik's Food Markets, a retail grocer serving the citizens of Wisconsin. I am asking you to consider including our industry in Wisconsin's tier 1B of the COVID-19 vaccination plan.

Since the beginning of the pandemic, my coworkers and I have been on the front lines serving our communities. We never shut down. We are face to face with the public 14 hours a day. There is no opportunity in our industry to work remotely.

I write today as an employee of Sendik's Food Markets, a retail grocer serving the citizens of Wisconsin. I am asking you to consider including our industry in Wisconsin's tier 1B of the COVID-19 vaccination plan.

Since the beginning of the pandemic, my coworkers and I have been on the front lines serving our communities. We never shut down. We are face to face with the public 14 hours a day. There is no opportunity in our industry to work remotely.

We are the stockers, checkers, baggers, cart wipers, clerks, delivery drivers and order fillers that get food to the people of our state. We are the definition of a front line worker. We are proud of what we do and have continued to show up everyday to do our jobs despite risk of exposure to the virus from the tens of thousands of guests who come to our stores every week. Our jobs are essential to our state's food supply and we consistently have been called "heroes" for the work we have done and continue to do.

In their guidelines for COVID-19 vaccine distribution, the CDC specifically calls out "grocery workers" as essential and part of Phase 1b distribution. We are asking your committee to include grocery workers as part of Wisconsin's Phase 1b distribution plan.

Sincerely,  
Daniel Tyksinski

To Whom It May Concern:

After reading who will be included in Phase 1B, I'm hoping sharing my thoughts will help you to include grocery store workers in this section. My family owns and operates Layton Fruit Market in St. Francis, WI. We are a small grocery store that has stayed open everyday during the pandemic. We are part of the food supply chain and have been able to provide people with the essentials they need during this uncertain time. When I heard grocery store workers were not going to be included in Phase 1B, it was a gut-punch. We were hailed as "heroes" in the early days of the pandemic - putting our health at risk to earn our income because we can't work from home-and now it feels like we are being pushed to the side. It is critical we stay open and our employees stay healthy in order for our income to continue. I feel that grocery store workers should absolutely be included in this next wave of vaccinations in 1B. Please, keep us safe and healthy. I'm asking that you consider this request so that we can keep myself, family and employees are able to safely work and continue to stay open for the community we love so much. I again urge you to include us, grocery store workers, in the 1B category.

Thank you,  
Molly Proite

TO WHOM IT MAY CONCERN:

I AM AN ESSENTIAL WORKER.

I WORK FOR WOODMAN'S FOOD MARKETS AND HAVE WORKED THROUGHOUT THIS ENTIRE PANDEMIC, IN A TIME OF NEED IN OUR COMMUNITIES. I HAVE WORKED HARD TO SUPPORT OUR COMMUNITY MEMBERS, ENSURING THEY STILL HAVE ACCESS TO ESSENTIAL ITEMS TO SURVIVE IN A STATE OF UNKNOWN. I WORKED HARD TO SERVE OUR GUESTS, WITHOUT HESITATION.

IT HAS BEEN SCARY. WHEN EVERYONE ELSE HAS SHELTERED AT HOME, I STILL CAME AND CONTINUE TO COME TO WORK.

BUT NOW I AM TOLD I AM NOT AN ESSENTIAL WORKER. ALL OF MY HARD WORK AND SACRIFICE OF MYSELF, MY FAMILY AND MY LOVED ONES MEANS NOTHING. I AM NO LONGER A PRIORITY TO RECEIVE A VACCINE.

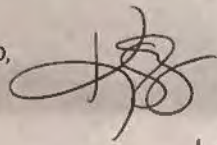

THIS IS NOT FAIR. WHY SHOULD I CONTINUE TO PUT MYSELF, MY FAMILY AND MY LOVED ONES HEALTH ON THE LINE WITHOUT PROTECTION?

AM I NO LONGER THE HERO YOU REFERRED TO ME AS BEFORE? I COME IN CONTACT WITH THOUSANDS OF PEOPLE EVERY DAY AND WEEK TO ENSURE THEY HAVE ACCESS TO THEIR FOOD AND OTHER ESSENTIAL NEEDS. HOW AM I NOT CONSIDERED TO BE A "PUBLIC FACING ESSENTIAL WORKER"? PLEASE TELL ME AS I DON'T UNDERSTAND.

I ASK YOU RECONSIDER YOUR RECOMMENDATION AND PRIORITIZE ALL OF THE "HEROES" WHO HAVE WORKED HARD IN UNKNOWN AND SCARY TIMES TO SUPPORT OUR COMMUNITIES IN THEIR ESSENTIAL NEEDS.

I AM AN ESSENTIAL WORKER.
