

SINCE 1911  
**APPRENTICESHIP**  
WISCONSIN

Approved Minutes of the  
**Painting & Decorating**  
**State Apprenticeship Advisory Committee**

**May 3, 2019**

IUPAT DC7 Madison Training Center  
Madison, WI 53719

<b>Members Present</b>	<b>Organization/Employer</b>
Arnold, Jeff	IUPAT DC7
Baumgartner, Brian	IUPAT DC7
Braun, Pete	Wall-Tech
Gifford, Adam	IUPAT DC7
Macejkovic, Jim	Building Service, Inc.
Schwiesow, Charles	Porta Painting, Inc.
Walsh, Dean	Lake City Glass
<b>Members Absent</b>	<b>Organization/Employer</b>
Mehrhoff, Jeff	IUPAT DC7
Niemiec, Tony	State Painting Co
Wolf, Greg	Schmelzer Paint Co Inc
<b>Consultants &amp; Guests</b>	<b>Organization/Employer</b>
Kasper, Andrew	Bureau of Apprenticeship Standards
Johnson, Josh	Bureau of Apprenticeship Standards
Holmes, Adam	IUPAT DC7
Smith, Owen	Bureau of Apprenticeship Standards
Jallah, Tracy	Bureau of Apprenticeship Standards
DuBenske, Scott	Wisconsin Technical College System

1. The meeting was called to order at 10:03 a.m. by Chuck Schwiesow, Committee Co-Chair, in conformance with the Wisconsin open meeting laws.
2. A roll call was conducted. A quorum was present.
3. The committee reviewed the current roster. The roster was incomplete. The Employer side should include Charles Schwiesow, Jim Macejkovic, Tony Neimic, Greg Wolf, Pete Braun, and Dean Walsh. The Employee side should include Jeff Mehrhoff, Jeff Arnold, Brian Baumgartner, Adam Gifford, and two additional members to be determined.

#### 4. Old Business

##### a. Review follow-up items from the previous meeting.

###### i. For action: approve the minutes

The minutes were approved with as written.

###### ii. For action: review the proposed Painter-Decorator-Taper-Finisher registered apprenticeship

Owen reviewed that the focus group convened over the winter and recommended keeping each individual program and creating a combined version for contractors that employ journeyworkers that perform both. The recommended program would be three years in length.

**Action:** *the state committee approved the draft recommendation and length of three years.*

**Action:** *the state committee approved a motion to increase the related instruction by 80 hours.*

**Action:** *the Bureau will convene the focus group this summer to draft the work processes, work process hours, and tasks for review at the fall meeting.*

###### iii. How is the pending youth apprenticeship progressing?

Owen reviewed that the state committee recommended creating a youth apprenticeship program for the Painting and Glazing occupations that would be independent of the current Architecture & Construction youth apprenticeship. The local committees and the Bureau were to meet last year to develop the content but were delayed due to other commitments. Owen asked the state committee for an update.

Adam Holmes mentioned that he has not had time to develop the content with the Bureau. However, some progress has been made.

- The Madison local committee reached out to the Dane County Youth Apprenticeship Consortium and obtained a skeleton framework for a Memorandum of Understanding.
- The local committee is concerned that youth apprenticeship is not necessarily steered towards union contractors and a lot of the training occurs in the high schools.
- The local committee is reviewing the MOU and determining if participants could be placed with union contractors and what training could be conducted at the training center.
- The local committee prefers to start with one or two local consortia so the union could track where participants are placed and bridge graduates into registered apprenticeship.
- The local committee believes exposing high school students to the occupations is valuable even if the students determine they prefer not to continue.

**Action:** *the state committee agreed to continue on both fronts, developing content with Adam and the Bureau and developing the MOU with local consortia.*

**b. Assessing applicants with Accuplacer Next Generation**

Owen explained that the item does not apply to roofing local committees because they use a proprietary assessment, not the Accuplacer Classic or Accuplacer Next Generation.

**c. Implementing revisions to CFR 29.30 (AA/EEO requirements)**

Josh Johnson reported that the Bureau projects the revisions will be fully implemented by January 2020. Some minor revisions have been implemented under an emergency administrative rule; he final version are being finalized by the state legislature and the Governor's Office.

Josh clarified that the minor revisions that have been implemented, such as the non-discrimination pledge, will not have a substantial state or local effect because sponsors already have the same or very similar policies in place. Other minor revisions will continue to be implemented through the year. The Bureau will have further guidance on specific changes and their effects at the fall meeting.

The committee asked whether the revisions were implemented by the state. Josh explained the revisions were implemented by the U.S. Department of Labor, so Wisconsin has to incorporate the revisions into its similar laws.

**c. Federal grants to expand "registered apprenticeship"**

Josh reported that the Bureau is proceeding very well on its three federal grants: the WAGE\$ grant, the state expansion grant, and the state accelerator grant.

The WAGE\$ grant is nearing completion. It has successfully met nearly all its targets. For example, it helped increase the enrollment of minority apprentices by 10%, which is very good, and developed new apprenticeships in information technology, healthcare, and advanced manufacturing. Information technology may be a very successful endeavor because its occupations work across all other sectors. The Bureau will soon conduct outreach efforts to recruit IT sponsors and apprentices.

Two targets have proved difficult to meet: enrolling apprentices in the first apprenticeships in new industries; and enrolling female apprentices. The first apprenticeships in an industry commonly grow very slowly because employers are either unfamiliar with apprenticeship or need more time to adapt their administrative operations. Recruiting women apprentices has proven historically challenging.

Attendees did not have questions or comments.

**d. 27<sup>th</sup> Biennial Apprenticeship Conference Follow-Up**

Josh reported that the 27<sup>th</sup> Biennial Apprenticeship Conference was an overall success: it drew 375 attendees; included 30 workshops; and received positive feedback on the variety of topics and workshops, especially on career pathway programs such as youth apprenticeship and pre-apprenticeship. Many attendees reported, though, that they did not like the venue. The Bureau is planning the 28<sup>th</sup> Biennial Conference for early 2021. The location and venue are pending.

Attendees did not have questions or comments.

**e. Updates to [www.WisconsinApprenticeship.org](http://www.WisconsinApprenticeship.org)**

Josh reviewed many historic updates the Bureau made to its webpage. Foremost, for the first time in its history, the Bureau website features sponsors. The update was made at the request of sponsors because they continue having trouble recruiting qualified applicants. Prior to this, sponsors preferred not to be featured because so they would not receive public inquiries outside of their hiring windows.

Additional updates include the following: three quick search functions on the homepage—by key word, by occupation, and by industry; three distinct navigation boxes based on user group—career seeker, employer, and current apprentices and sponsors; and apprenticeship-specific webpages that feature visual representations of the training information, employment projections, and salaries.

The committee complimented the revisions.

#### **h. Other**

Attendees did not have additional topics.

### **5. New Business**

#### **a. Registered Apprenticeships with the Department of Corrections**

Josh explained that the Bureau is enhancing registered apprenticeship opportunities within the state's correctional system after an inspiring tour of Ohio's apprenticeship program within correctional facilities. Wisconsin has 42 apprentices in correctional facilities; Ohio has 2,400.

Josh introduced Liz Pusch, a former Apprenticeship Training Representative, is the Bureau's Policy Analyst in charge of developing programs with Wisconsin's Department of Corrections (DOC).

Liz summarized several key facts about registered apprenticeships within correctional facilities. First, 90% of offenders are released, so the correctional population is a large talent pool worth training. Second, registered apprenticeships are selective opportunities; facilities select individuals based on aptitude, interest, and offense. Third, most programs are offered through minimum security facilities, provide up to 60% of the training in the facility, and then release participants to complete the rest.

Last, this initiative expands the registered training that DOC has been providing many years. DOC has offered apprenticeships in correctional officers, carpentry, horticultural, and culinary arts; it added machining, masonry, and welding; and is expanding further into building maintenance and construction, and considering pre-apprenticeships. Much of the training is provided through the Wisconsin Technical College System. Some programs provide the instruction apprentices receive.

Many companies currently employ offenders on work release. Since the training itself is already being delivered, the Bureau's role is to ensure it results in a valuable credential.

The committee recommended prioritizing safety training, such as OSHA 10, and foundational construction skills used by all construction occupations.

#### **b. 2019 National Apprenticeship Week**

Josh announced that 2019 National Apprenticeship Week will be held November 10-16. November 11 will be Veterans Day, so the Bureau is planning an event to recognize veterans in apprenticeship. Overall, the Bureau is planning and outreaching the event six months in advance.

Attendees did not have questions or comments.

#### **c. BAS personnel changes**

Josh reported the following changes:

- Deb Schanke, Madison Apprenticeship Training Representative (ATR), retired.
- Mary Harrington, federal ATR, retired.
- Mary Pierce, policy analyst, retired.
- Long Vang was hired as the new ATR for Eau Claire.

- Dominique Robinson, former ATR for Racine, was hired as a policy analyst in the Madison office.
- Andrew Kasper was hired as policy analyst in the Madison office; he replaced Matthew White.

Attendees did not have questions or comments.

**c. Other**

Attendees did not have additional topics.

**6. WTCS Update**

Scott DuBenske reviewed the written report with attendees.

**7. Review the program participants.**

Program participants include 127 apprentices and 37 employers with a contract in active or unassigned status on April 15, 2019.

**8. Schedule the next meeting.**

The committee tentatively scheduled its next meeting for Wednesday, October 9, 10:00 a.m., at the Big Bend training center.

**9. The meeting adjourned at 11:36 a.m.**

SUBJECT: **State Painting & Glazing Apprenticeship Advisory Committee meeting**

DATE: **Friday, May 3, 2019**

TIME: 10:00 AM

PLACE: IUPAT DC 7 Madison Training Center  
5375 King James Way  
Fitchburg, 53719

#### **TENTATIVE AGENDA**

1. Call the meeting to order.
2. Distribute the sign-in sheet. Introduce attendees.
3. Review the current roster.
4. **Old Business**
  - a. Review the follow-up items from the previous meeting:
    - i. **For action:** approve the minutes.
    - ii. **For action:** review Painter-Decorator-Taper-Finisher registered apprenticeship
    - iii. How is the pending youth apprenticeship progressing?
  - b. Implementing revisions to CFR 29.30 (AA/EEO requirements)
  - c. Federal grants to expand "registered apprenticeship"
  - d. 27<sup>th</sup> Biennial Apprenticeship Conference Follow--Up
  - f. Updates to [www.WisconsinApprenticeship.org](http://www.WisconsinApprenticeship.org)
  - g. Department of Corrections registered apprenticeships
  - h. Other
5. **New Business**
  - a. Assessing applicants with Accuplacer Next Generation
  - b. National Apprenticeship Week 2019
  - c. BAS personnel changes
  - d. Other
6. Review the program participants.

7. Schedule the next meeting.

8. Adjourn.

# DWD 296: Sponsor Obligations

## All sponsors

**Do not** discriminate based on race, color, religion, sex, national origin, disability, age (over 40), sexual orientation or genetic information

**Designate** an individual to oversee equal opportunity functions, maintain records, and submit reports to the Department

**Perform** universal apprentice outreach and recruitment, maintain a list of recruitment outlets, and provide those outlets 30-day advance notice of apprenticeship postings

**Publish**, post and disseminate an equal opportunity pledge, policy and complaint instructions

**Ensure** apprenticeship activities and facilities are free from discrimination and establish an internal process for reviewing harassment and intimidation complaints—disseminated in writing

**Hold** information sessions to conduct anti-harassment training, introduce apprentices program staff to equal opportunity policy, and instruct them how to file a discrimination complaint with the Department

**Keep** records of apprentice demographics, selection, assignment, layoff, accommodation requests, etc., for at least five years

**Select** apprentices through any non-discriminatory methods, so long as they are outlined in the sponsor's written standards and applied uniformly. Selection methods must also comply with the Uniform Guidelines on Employee Selection Procedures (UGESP) and not violate the Americans with Disabilities Act (ADA)

## Five or more Apprentices

**Maintain** a written affirmative action program which includes:

1. utilization analysis to compare race, sex and ethnicity of apprentices to recruitment area
2. establishment of utilization goals for race, sex and ethnicity, if appropriate
3. establishment of utilization analyses and goals for individuals with disabilities
4. targeted outreach, recruitment and retention activities, if necessary, to meet utilization goals
5. Perform annual review of personnel processes for potential discrimination

**Invite** applicants and apprentices to confidentially disclose a disability, at two times during hiring process and annually

# DWD 296: Implementation Timeline 2019

<b>January 18</b>	<b>Emergency rule enacted</b>
<b>January 22</b>	<b>Economic impact analysis period ended. Rule draft filed with Legislative Rules Clearinghouse. Public Comment begins.</b>
<b>February 20</b>	<b>Public hearing for DWD 296 and 295</b>
<b>March 15</b>	<b>Submit to Governor's Office for approval</b>
<b>April 1</b>	<b>Rule filed with Senate and Assembly</b>
<b>April 15</b>	<b>Legislature refers rule to appropriate assembly and senate committees</b>
<b>May 15</b>	<b>Review period ends for senate and assembly committees</b>
<b>May 20</b>	<b>Rule referred to Joint Committee for Review of Administrative Rules (JCRAR)</b>
<b>June 18</b>	<b>JCRAR completes review of rule</b>
<b>June</b>	<b>First phase of sponsor requirements</b>
<b>July/August</b>	<b>Publication date of permanent rule DWD 296 and 295</b>
<b>January 2020</b>	<b>Second phase of sponsor requirements</b>

# DWD 296: Recurring Obligations

<u>Annually</u>	<u>At Compliance Review</u>	<u>As Needed</u>
<p>Update list of recruitment sources</p> <p>Review of personnel processes for selection criteria, wages, assignments, discipline, etc.</p> <p>Notice to apprentices they may update disability self-identification</p>	<p>Update written affirmative action plan</p> <p>Conduct workforce analysis for disability</p> <p>Undertake targeted outreach and action-oriented programs, if necessary</p> <p>Conduct workforce analysis for race, sex and ethnicity</p> <p>Conduct utilization analysis for race, sex and ethnicity</p> <p>Establish utilization goals for race, sex and ethnicity and conduct targeted outreach and action-oriented programs, if necessary</p>	<p>Conduct anti-harassment training and share EEO policy at orientation and periodically</p> <p>Invite prospective and new apprentices to self-identify disability status:</p> <ol style="list-style-type: none"><li>1. During apprenticeship application process</li><li>2. After acceptance into program, but before start date</li></ol>

## WAGE\$ Apprentices Spring Committee Update March 2019

The Wisconsin Apprenticeship Growth and Expansion Strategies (WAGE\$) grant is a 5-year, \$5 million grant from the US Department of Labor. The purpose is to expand Registered Apprenticeship in Advanced Manufacturing and develop new programs in Information Technology and Health Care. The grant started October 1, 2015, and will conclude September 30, 2020.

### WAGE\$ Apprentices by Trade

#### Current Count

Entered Active Status 10/1/15 - 3/13/19 from data pull 3/14/19

This report includes apprentice contract records which, during the selected report period, match the following criteria: CONTRACT TRADE=Industrial Manufacturing Technician;Maintenance Technician;Mechatronics Technician;Welder - Fabricator;Welder / Automated Welding;Software Developer;IT Service Desk Technician;Data Analyst;Medical Assistant,

RE: Converting from Accuplacer Classic to Accuplacer Next Generation

### Summary

Effective January 28, 2019, Accuplacer Classic will be fully replaced by Accuplacer Next Generation. If your local committee uses Accuplacer Classic to assess applicants, it must convert its scores to the equivalent Next Generation scores by January 28.

### Converting Accuplacer Classic Scores to Accuplacer Next Generation

Classic	Next Generation	Crosswalk
Elementary Algebra	Quantitative Analysis and Statistics (QAS)	College Board, Table 4 (enclosed)
Reading	Reading	College Board, Table 2 (enclosed)
Arithmetic	Arithmetic	Contact your local technical college

National concordance tables (crosswalks) for Elementary Algebra and Reading were developed by the College Board. They are enclosed for your use.

*No national concordance table is available for Arithmetic due to insufficient data.* Therefore, many Wisconsin technical colleges developed concordance tables based on local data. The tables vary by college.

### Action Items for Local Committees, Effective January 28, 2019:

If your local committee uses Accuplacer Classic to assess Elementary Algebra and/or Reading:

Use the Accuplacer Concordance Tables developed by College Board (enclosed) to determine the equivalent scores on Accuplacer Next Generation scores.

For example, if your local committee requires a minimum Elementary Algebra score of 33, the corresponding QAS score on Accuplacer Next Generation would be 235 (see *Table 4*).

For example, if your local committee requires a minimum Reading score of 55, the corresponding Reading score on Accuplacer Next Generation would be 236 (see *Table 2*).

If your local committee uses Accuplacer Classic to assess Arithmetic and the minimum score was set by your respective state committee:

1. Use the Arithmetic concordance table of the technical college at which the applicant took Accuplacer Classic.
2. If the technical college does not have a concordance table, use the one from the nearest technical college to your committee.
3. If your local committee administers Accuplacer Classic in-house, use local data to determine the equivalent score.

If your local committee uses Accuplacer Classic to assess Arithmetic and the minimum score was NOT established by a state committee:

1. Do actions one through three above, OR
2. Suspend assessing Arithmetic by submitting revised local standards to the Bureau for review and approval.

If your local committee does not use Accuplacer Classic, no action is needed.

### **Discussion by State Committees**

All state construction committees except those that use proprietary assessments will discuss Accuplacer Next Generation at their 2019 spring meetings. Please bring your questions and concerns to the meetings.

### **Questions**

Please direct immediate questions or comments to Mr. Joshua Johnson, Chief of Field Operations, at 608-266-3132 or [Joshua.johnson@dwd.wisconsin.gov](mailto:Joshua.johnson@dwd.wisconsin.gov).

# ACCUPLACER® Concordance Tables

Next-generation ACCUPLACER placement tests launched in September 2016 to more effectively help higher education institutions place students in classes that match their skill level. To assist institutions in transitioning from the classic to the next-generation ACCUPLACER placement tests, the College Board conducted concordance studies between corresponding classic and next-generation tests that have adequate content alignment and for which sufficient data were collected (see Table 1). Concordance tables in this document were developed based on the results of the studies.

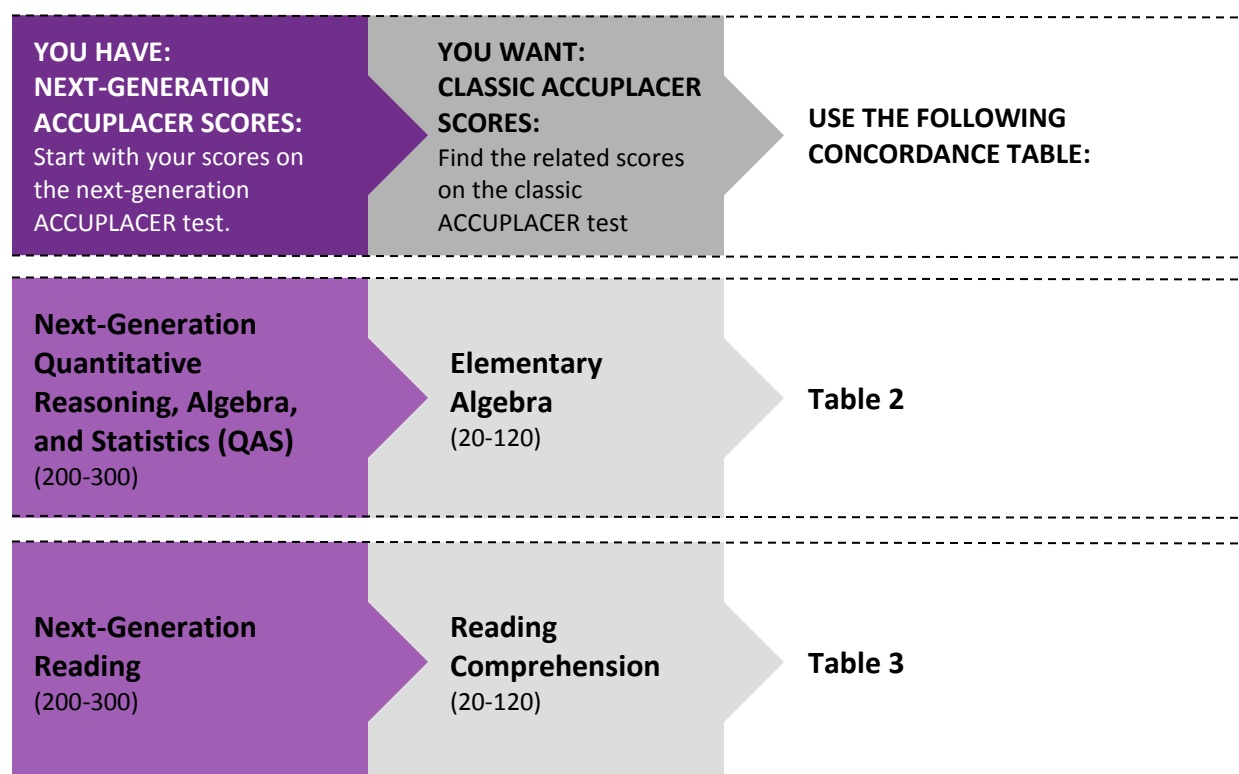

The College Board strongly recommends that institutions use multiple academic and nonacademic factors to determine placement policies and implement predictive placement validity studies to help validate those placement decisions. Institutions should conduct validity studies as soon as sufficient data are available to confirm or adjust next-generation ACCUPLACER placement scores. This can be done using the College Board's free Admitted Class Evaluation Service (ACES) at [aces.collegeboard.org](https://aces.collegeboard.org).

*Table 1: Next-Generation and Classic ACCUPLACER Placement Tests*

Next-Generation	Classic	Content Alignment	National Concordance Tables
Arithmetic	Arithmetic	Strong	Not constructed
Quantitative Reasoning, Algebra, and Statistics (QAS)	Elementary Algebra	Strong	Table 2 and Table 4
Advanced Algebra and Functions (AAF)	College-Level Math	Moderate	Not constructed
Reading	Reading Comprehension	Strong	Table 3 and Table 5
Writing	Sentence Skills	Minimal	Not constructed

## Instructions for Concoring Next-Generation to Classic ACCUPLACER

**Note:** Two sets of tables are available: one to concord scores from next-generation to classic ACCUPLACER and one from classic to next-generation ACCUPLACER. Be sure to use the appropriate direction – if you are starting with scores on classic and need to concord to next-generation ACCUPLACER, please see Tables 4 and 5, on pages 6 and 7 respectively, in this document.

*Table 2: Next-Generation Quantitative Reasoning, Algebra, and Statistics (QAS) to Classic Elementary Algebra Concordance*

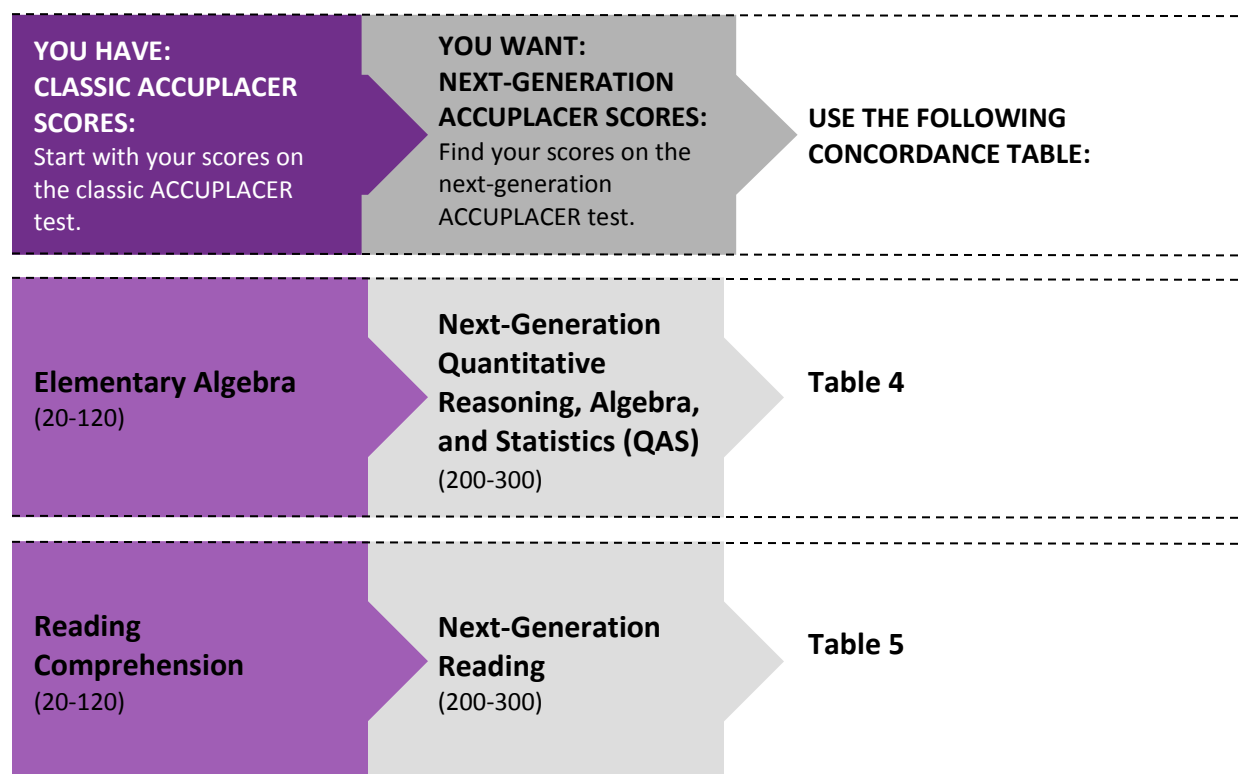

Next-Generation QAS	Classic Elementary Algebra	Next-Generation QAS	Classic Elementary Algebra	Next-Generation QAS	Classic Elementary Algebra
200-211	31	246	53	268	82

## Appendix

### Concordance Tables: Appropriate Uses

Concordance tables allow institutions to compare scores between two tests that measure similar but not the same thing. While a concordance table is one way to compare scores from different assessments, a concorded score is not a perfect prediction of how a student would perform on the other test.

The ACCUPLACER concordance tables were constructed from a sample that is intended to represent the ACCUPLACER test-taking population. Applying the concordance tables to populations of students that are demographically different from the national population may result in decisions that are not beneficial to students. When using the classic to next-generation concordance tables to establish placement scores, recognize that the resulting placements using the concorded scores may be materially different from placement using the classic scores.

The College Board strongly recommends that institutions use multiple academic and nonacademic factors to determine placement policies and implement predictive placement validity studies to help validate those placement decisions. Institutions should conduct validity studies as soon as sufficient data are available to confirm or adjust next-generation ACCUPLACER placement scores. This can be done using the College Board's free Admitted Class Evaluation Service (ACES).

**Note:** Two sets of concordance tables were constructed. One to concord next-generation scores to classic scores, another to concord classic scores to next-generation scores. Be sure to use the appropriate direction.

### Next-Generation to Classic Concordance

Table 2 is the concordance table for Next-Generation Quantitative Reasoning, Algebra, and Statistics (QAS) to Classic Elementary Algebra. Table 3 is the concordance table for Next-Generation Reading to Classic Reading Comprehension. Use these tables when you have next-generation scores and need to concord to the classic scores. A concorded score in this context is the likely score on the classic test for a given score on the next-generation test. For each score on the next-generation test, there is a corresponding score on the classic test. However, there are scores on the classic test that do not have a corresponding score on the next-generation test.

### Use Case 1: Placing Students with Next-Generation Scores Using Existing Classic Placement Scores

Tables 2 and 3 are recommended for use during transition when an institution has placement scores for classic tests but has not yet set placement scores for the next-generation test using the Bookmark method or other procedures. After a student takes the next-generation test, their score is concorded using the appropriate next-generation to classic table. The concorded score is then used for placement based on the institution's classic placement policy.

*Example 1:*

Melville College is a current user of the Classic Elementary Algebra placement test and transitioning to QAS. Their placement policy states that students who receive a score of 82 or above in Elementary Algebra and have a GPA of 2.6 are placed in MATH 101, an introductory credit-bearing course. Mark and Diana took QAS and both have GPAs that are above 2.6. Mark received a score of 262 while Diana received a 269. Mark's concorded score on Elementary Algebra is 73. Based on the placement policy he is not placed in MATH 101; Diana's concorded score in Elementary Algebra is 84 and therefore she is placed in MATH 101.

By submitting data from the transition period to ACES, an institution can obtain data to inform placement scores on the next-generation test that are based on the institution's student population and specific course description. A sample size of 50 students or greater is required to use ACES.

**Use Case 2: Transferability of Scores Across Institutions**

Classic to next-generation concordance tables are useful when students take a next-generation test and then need to transfer to a school that has not yet transitioned to next-generation or has placement policies based on classic ACCUPLACER tests.

*Example 2:*

Bobby planned to enroll in Greendale Community College, an institution that has transitioned to the next-generation tests. He took the reading test and received a score of 291. Later, he enrolled in Hudson College to take a sociology class. Hudson College is still using the Classic Reading Comprehension test for placing students in reading-intensive courses, where a score of 75 is deemed college-ready. Rather than having to take the classic test, Bobby's concorded score of 111 may be used to place him in any reading-intensive course at Hudson College, including an introductory credit-bearing sociology class.

**Classic to Next-Generation Concordance**

Table 4 is the concordance table for the Classic Elementary Algebra to Next-Generation Quantitative Reasoning, Algebra, and Statistics (QAS). Table 5 is the concordance table for Classic Reading Comprehension to Next-Generation Reading. Use these tables to concord classic scores to next-generation scores. A concorded score in this context is the likely score on the next-generation test for a given score on the classic test.

For each score on the classic test, there is a corresponding score on the next-generation test. However, there are scores on the next-generation test that do not have corresponding scores on the classic test.

**Use Case 3: Transferability of Scores**

Institutions have different policies regarding the length of time between when an ACCUPLACER test was taken and the time of enrollment and course placement. For institutions using the next-generation tests to set their placement scores, the classic to next-generation concordance tables will enable them to

accept students who come to their institution that have previously taken the classic test. This is especially useful for institutions using the next-generation tests but have never used the classic tests.

*Example 3:*

Ed intends to enroll in Barnett College which is an early adopter of next-generation tests. Barnett College requires students to score 253 and 262 on Next-Generation Reading and Next-Generation QAS are, respectively, to be placed in a credit-bearing course, and accepts scores from tests taken within the last two years. Ed took Classic Reading Comprehension and Classic Elementary Algebra at another college within the last year but decided to enroll at Barnett instead. His scores of 97 in Reading Comprehension and 103 in Elementary Algebra concord to 264 and 267. Therefore, Ed can take credit-bearing courses at Barnett College without taking the next-generation ACCUPLACER tests.

#### Use Case 4: Concorded Placement Scores

The College Board is committed to easing the transition between classic and next-generation ACCUPLACER tests, including providing support for establishing placement scores on the next-generation tests. The College Board provides procedure documents and materials to support a standard setting process using the Bookmark method. The College Board has also produced ACCUPLACER Skills Insight™ statements for all the next-generation tests. Skills Insight consist of statements of what students know and can do at each of the five score ranges. When compared to what students need to know and be able to do to enroll and succeed in credit-bearing courses, it is a powerful tool for establishing initial placement scores. For institutions with established placement scores on the Classic Elementary Algebra and Classic Reading Comprehension, concorded placement scores are found using Tables 4 and 5.

*Example 4:*

Adams College is using the Classic Elementary Algebra test to place their incoming freshmen in appropriate levels of college math. Their placement scores for levels 1, 2, and 3 are 44, 82, and 109, respectively. Using the concordance information in Table 4, placement scores using Next-Generation QAS are as follows:

- 240 to 256: Level 1 Math
- 257 to 268: Level 2 Math
- 269 or higher: Level 3 Math

## **WTCS System-Wide Activity Update March 2019**

---

### **Wisconsin Fast Forward Awards \$250,000 to the WTCS to Support Apprenticeship Instruction**

In recognition of the rapid expansion of apprenticeship programs in Wisconsin, the WTCS will administer Wisconsin Fast Forward grant funds as sub-grants to WTCS Colleges to supplement instructional costs where need has outpaced projected growth. Funds will be available from January 2019-December 2020.

### **WTCS-BAS 2019 Apprenticeship Completion Report**

The 2019 WTCS-BAS Apprenticeship Completer Report is now available online. The report contains employment, wage and training satisfaction outcomes for apprentices completing their programs in 2016-17. It can be found here: <https://www.wtcsystem.edu/about-us/resources-publications> Or via direct link here: <https://www.wtcsystem.edu/wtcsexternal/cmspages/getdocumentfile.aspx?nodeguid=b3153b83-19ff-41d4-8527-39fe0e9c845c>

- Of the 847 completers surveyed, 330 (39%) responded.
- Respondents reported a 96% satisfaction rate for both on-the-job training and classroom instruction.
- Median salary across all trades increased to \$77,753 from \$71,624 in the prior year.
- Respondents indicating an interest in continuing education beyond apprenticeship rose to 46%, up from 43% and 34% in the two preceding years.

### **WTCS Apprenticeship Enrollment Trend**

WTCS enrollments across all apprenticeship programs increased from 6528 to 6903 unduplicated, and 7124 to 7450 duplicated, students by the end of 2017-2018 academic year. That is a 5.7% and 4.6% increase, respectively, in one year. A current mid-year snapshot for 2018-19 is showing 7058 and 7154 enrollees. Confirmed actual enrollment for the 2018-19 academic year will not be available until August 2019.

### **Great Lakes Higher Education Corporation (under new corporate name Ascendium Education Group) Tools of the Trade Scholarships**

As in the prior year, Ascendium Education Group again awarded 200, \$1500 scholarships for industrial and construction sector apprentices in Spring 2019.

### **Active WTCS-BAS Apprenticeship Programs, By Sector, Occupation, and College as of January 2019**

The master chart of all apprenticeship programs with related instruction offered through the WTCS colleges can be found here via the following link. "Active" is defined as approved programs with enrollments in the past two years. The color-coded chart can be found on the MyWTCS website here:

<https://mywtcs.wtcsystem.edu/wtcsinternal/cmspages/getdocumentfile.aspx?nodeguid=2b3fe9c1-681d-4ceb-a612-f474b04aaa8b>
