Vaccine Subcommittee

Via email: dhssdmac@dhs.wisconsin.gov

Dear Vaccine Subcommittee Members,

I write today as an employee of Certco, Inc. We are a wholesale grocery distributor who service independent grocery stores in Wisconsin, along with other states in the upper Midwest. We are owned by the grocery stores that we service.

I ask that there be reconsideration and you include our industry in tier 1B in the COVID-19 vaccination plan. CDC guidance on the COVID-19 vaccine distribution was released even before the announcement of a vaccine, and had our industry listed as part of tier 1B, as essential public facing workers.

I am disheartened to hear the committee is not following this guidance and is instead recommending our industry should receive the vaccine as part of tier 1C.

All healthcare workers, public safety workers and child care center workers are factored in tier 1A and 1B. Grocery workers and food supply essential workers were also mentioned in the same breath as these industries since early March of 2020 and called "Heroes". Yet, we are now left without the benefit of hope that these same individuals are getting.

Please reconsider your revised plan for Tier 1B to include our industry.

Moving the age tier down to include individuals above age 70, instead of 75 years of age, is protecting a new group that has been kept safe by the State orders to stay home, and they have been fed due to us and the stores we service.

Food is essential to the survival for all mankind, regardless of age. My coworkers and I have been working tirelessly to ensure people have the food and supplies they need available to them in order to follow the "Shelter in Place" and "Safer at Home" orders set forth by the state of Wisconsin. Without me and my co-workers remaining healthy and the grocery store workers staying healthy, we will have a much larger issue on our hands in keeping the food available to all Wisconsin residents.

To be called heroes for 10 months and have this glimmer of hope for a vaccine ripped out of our hands is a shame. Please reconsider.

Sincerely,

A handwritten signature in blue ink, appearing to read "Anders" followed by a stylized surname.

Dear Vaccine Subcommittee Members,

I write today as an employee of Certco, Inc. We are a wholesale grocery distributor who service independent grocery stores in Wisconsin, along with other states in the upper Midwest. We are owned by the grocery stores that we service.

I ask that there be reconsideration and you include our industry in tier 1B in the COVID-19 vaccination plan. CDC guidance on the COVID-19 vaccine distribution was released even before the announcement of a vaccine, and had our industry listed as part of tier 1B, as essential, public facing workers.

I am disheartened to hear the committee is not following this guidance and is instead recommending our industry should receive the vaccine as part of tier 1C.

All healthcare workers, public safety workers and child care center workers are factored in tier 1A and 1B. Grocery workers and food supply essential workers were also mentioned in the same breath as these industries since early March of 2020 and called "Heroes". Yet, we are now left without the benefit of hope that these same individuals are getting.

Please reconsider your revised plan for Tier 1B to include our industry.

Moving the age tier down to include individuals above age 70, instead of 75 years of age, is protecting a new group that has been kept safe by the State orders to stay home, and they have been fed due to us and the stores we service.

Food is essential to the survival for all mankind, regardless of age. My coworkers and I have been working tirelessly to ensure people have the food and supplies they need available to them in order to follow the "Shelter in Place" and "Safer at Home" orders set forth by the state of Wisconsin. Without me and my co-workers remaining healthy and the grocery store workers staying healthy, we will have a much larger issue on our hands in keeping the food available to all Wisconsin residents.

To be called heroes for 10 months and have this glimmer of hope for a vaccine ripped out of our hands is a shame. Please reconsider.

Sincerely, *Victor S. Rodriguez*

My coworkers and I have been working tirelessly to ensure people have the food and supplies they need available to them in order to follow the "Shelter in Place" and "Safer at Home" orders set forth by the state of Wisconsin. Without me and my co-workers remaining healthy and the grocery store workers staying healthy, we will have a much larger issue on our hands in keeping the food available to all Wisconsin residents.

To be called heroes for 10 months and have this glimmer of hope for a vaccine ripped out of our hands is a shame. Please reconsider.

Sincerely,

State Disaster Medical Advisory Committee (SDMAC)
Vaccine Subcommittee
Via email: dhssdmac@dhs.wisconsin.gov

Dear Vaccine Subcommittee Members,

I write today as an employee of Certco, Inc. We are a wholesale grocery distributor who service independent grocery stores in Wisconsin, along with other states in the upper Midwest. We are owned by the grocery stores that we service.

I ask that there be reconsideration and you include our industry in tier 1B in the COVID-19 vaccination plan. CDC guidance on the COVID-19 vaccine distribution was released even before the announcement of a vaccine, and had our industry listed as part of tier 1B, as essential public facing workers.

I am disheartened to hear the committee is not following this guidance and is instead recommending our industry should receive the vaccine as part of tier 1C.

All healthcare workers, public safety workers and child care center workers are factored in tier 1A and 1B. Grocery workers and food supply essential workers were also mentioned in the same breath as these industries since early March of 2020 and called "Heroes". Yet, we are now left without the benefit of hope that these same individuals are getting.

Please reconsider your revised plan for Tier 1B to include our industry.

Moving the age tier down to include individuals above age 70, instead of 75 years of age, is protecting a new group that has been kept safe by the State orders to stay home, and they have been fed due to us and the stores we service.

Food is essential to the survival for all mankind, regardless of age. My coworkers and I have been working tirelessly to ensure people have the food and supplies they need available to them in order to follow the "Shelter in Place" and "Safer at Home" orders set forth by the state of Wisconsin. Without me and my co-workers remaining healthy and the grocery store workers staying healthy, we will have a much larger issue on our hands in keeping the food available to all Wisconsin residents.

Dear Vaccine Subcommittee Members,

I write today as a loved one of someone who works in the grocery industry.

I ask that there be reconsideration and that you include the food supply industry in tier 1B of the COVID-19 vaccination plan. CDC guidance on the COVID-19 vaccine distribution was released even before the announcement of a vaccine, and had the food supply industry listed as part of tier 1B, as essential public facing workers.

I am disheartened to hear the committee is not following this guidance and is instead recommending the food supply industry should receive the vaccine as part of tier 1C.

All healthcare workers, public safety workers and child care center workers are factored in tier 1A and 1B. Grocery workers and food supply essential workers were also mentioned in the same breath as these industries since early March of 2020 and called "Heroes". Yet, my loved one now doesn't have the same hope these other front-line heroes are getting.

Please reconsider your revised plan for Tier 1B to include grocery workers and others critical in the food supply.

Food is essential to the survival for all mankind, regardless of age. Employees in the grocery industry have been working tirelessly to ensure people have the food and supplies they need available to them in order to follow the "Shelter in Place" and "Safer at Home" orders set forth by the state of Wisconsin. My loved one and their co-workers need to remain healthy. Without them we will have a much larger issue on our hands in keeping food available to all Wisconsin residents.

To watch my loved one leave the house for 10 months and put themselves at risk out in the public to ensure all of us have food on the table has been so hard. For them to have this glimmer of hope for a timely vaccine ripped out of their hands is a shame. Please reconsider.

Sincerely,

Certco employee family member

I write today as an employee of Certco, Inc. We are a wholesale grocery distributor who service independent grocery stores in Wisconsin, along with other states in the upper Midwest. We are owned by the grocery stores that we service.

I ask that there be reconsideration and you include our industry in tier 1B in the COVID-19 vaccination plan. CDC guidance on the COVID-19 vaccine distribution was released even before the announcement of a vaccine, and had our industry listed as part of tier 1B, as essential public facing workers.

I am disheartened to hear the committee is not following this guidance and is instead recommending our industry should receive the vaccine as part of tier 1C.

All healthcare workers, public safety workers and child care center workers are factored in tier 1A and 1B. Grocery workers and food supply essential workers were also mentioned in the same breath as these industries since early March of 2020 and called "Heroes". Yet, we are now left without the benefit of hope that these same individuals are getting.

Please reconsider your revised plan for Tier 1B to include our industry.

Moving the age tier down to include individuals above age 70, instead of 75 years of age, is protecting a new group that has been kept safe by the State orders to stay home, and they have been fed due to us and the stores we service.

Food is essential to the survival for all mankind, regardless of age. My coworkers and I have been working tirelessly to ensure people have the food and supplies they need available to them in order to follow the "Shelter in Place" and "Safer at Home" orders set forth by the state of Wisconsin. Without me and my co-workers remaining healthy and the grocery store workers staying healthy, we will have a much larger issue on our hands in keeping the food available to all Wisconsin residents.

To be called heroes for 10 months and have this glimmer of hope for a vaccine ripped out of our hands is a shame. Please reconsider.

Sincerely,

A handwritten signature in black ink, appearing to be the initials 'NFC' followed by a horizontal line.

Dear Vaccine Subcommittee Members,

I write today as a loved one of someone who works in the grocery industry.

I ask that there be reconsideration and that you include the food supply industry in tier 1B of the COVID-19 vaccination plan. CDC guidance on the COVID-19 vaccine distribution was released even before the announcement of a vaccine, and had the food supply industry listed as part of tier 1B, as essential public facing workers.

I am disheartened to hear the committee is not following this guidance and is instead recommending the food supply industry should receive the vaccine as part of tier 1C.

All healthcare workers, public safety workers and child care center workers are factored in tier 1A and 1B. Grocery workers and food supply essential workers were also mentioned in the same breath as these industries since early March of 2020 and called "Heroes". Yet, my loved one now doesn't have the same hope these other front-line heroes are getting.

Please reconsider your revised plan for Tier 1B to include grocery workers and others critical in the food supply.

Food is essential to the survival for all mankind, regardless of age. Employees in the grocery industry have been working tirelessly to ensure people have the food and supplies they need available to them in order to follow the "Shelter in Place" and "Safer at Home" orders set forth by the state of Wisconsin. My loved one and their co-workers need to remain healthy. Without them we will have a much larger issue on our hands in keeping food available to all Wisconsin residents.

To watch my loved one leave the house for 10 months and put themselves at risk out in the public to ensure all of us have food on the table has been so hard. For them to have this glimmer of hope for a timely vaccine ripped out of their hands is a shame. Please reconsider.

Sincerely,

State Disaster Medical Advisory Committee (SDMAC)

Please reconsider your revised plan for Tier 1B to include our industry.

Moving the age tier down to include individuals above age 70, instead of 75 years of age, is protecting a new group that has been kept safe by the State orders to stay home, and they have been fed due to us and the stores we service.

Food is essential to the survival for all mankind, regardless of age. My coworkers and I have been working tirelessly to ensure people have the food and supplies they need available to them in order to follow the "Shelter in Place" and "Safer at Home" orders set forth by the state of Wisconsin. Without me and my co-workers remaining healthy and the grocery store workers staying healthy, we will have a much larger issue on our hands in keeping the food available to all Wisconsin residents.

To be called heroes for 10 months and have this glimmer of hope for a vaccine ripped out of our hands is a shame. Please reconsider.

Sincerely,

DANIEL CARTEN

Dear Vaccine Subcommittee Members,

I write today as an employee of Certco, Inc. We are a wholesale grocery distributor who service independent grocery stores in Wisconsin, along with other states in the upper Midwest. We are owned by the grocery stores that we service.

I ask that there be reconsideration and you include our industry in tier 1B in the COVID-19 vaccination plan. CDC guidance on the COVID-19 vaccine distribution was released even before the announcement of a vaccine, and had our industry listed as part of tier 1B, as essential public facing workers.

I am disheartened to hear the committee is not following this guidance and is instead recommending our industry should receive the vaccine as part of tier 1C.

All healthcare workers, public safety workers and child care center workers are factored in tier 1A and 1B. Grocery workers and food supply essential workers were also mentioned in the same breath as these industries since early March of 2020 and called "Heroes". Yet, we are now left without the benefit of hope that these same individuals are getting.

Please reconsider your revised plan for Tier 1B to include our industry.
