**Minutes**

				<ul style="list-style-type: none"><li>• LuAnn Weik, Genetic Counselor at MCW.</li></ul> <p>X-ALD has been approved by the Secretary of DHS to add to the NBS panel of conditions and is now moving through the rule-making process.</p> <p>There is a NBS funding shortfall. The costs for the NBS program continue to go up and there is not enough revenue to support the lab and the program. The program has been addressing this concern. There are two processes in place to address funding:</p> <ul style="list-style-type: none"><li>• increase the blood card fee through the legislative process. This has been stalled for some time.</li><li>• access funding through an internal DHS budgetary process. This is currently under review.</li></ul> <p>DHS and the WSLH are working to find solutions to address funding challenges. Several committee</p>

**Minutes**

				<p>0 No 12 More information needed</p> <p>The Umbrella Committee recommended the addition of MPS 1 by a vote of 12 – 1 to be forwarded to the SACNBS for review. The recommendation includes providing the additional follow up information to the SACNBS for criteria 5 &amp; 9.</p> <p>Criteria 5 - appropriate follow-up should be available for newborns who have a false positive newborn screen.</p> <p>Criteria 9 - Recommendations and decisions should include consideration of the costs of the screening test, confirmatory testing, accompanying treatment, counseling, and the consequences of false positives. The mechanism of funding those costs should be identified. Expertise in economic factors should be available to those responsible for recommendations and decisions.</p> <p>Motion – Dr. Jeff Britton</p>
