

OPEN MEETING MINUTES

Name of Governmental Body: STAC- Injury Prevention		Attending: 79 participants
Date: 12/7/2022	Time Started: 0800am	Time Ended: 0900am
Location: Virtual- Zoom		Presiding Officer: Amanda Tabin, Chair

Minutes

1. Introductions and Announcements (*informational*)
2. Review and approve September meeting minutes (*vote*)
First: Mary Lauby
Second: Karmen Bryer
In favor: All
Opposed: None
3. Top 5 MOI for Pediatrics- Key update (*informational*)
Holding on peds data due to uploading issues. We will share peds data as soon as we can!
4. Falls and ATV update (*informational*)
ATV:
 - Protective equipment and ATVs (helmets, seatbelts)
 - Alcohol involvement
 - Injury codes associated with ATVs from this MOI
 - <https://dnr.wisconsin.gov/topic/ATV/CrashInfo> Interesting ATV data collected by the DNR. Option to collaborate.
 - Region 1: utilized STB and ATV information. Reached out to local ATV group and haven't found strong injury prevention efforts.
 - Alcohol and ATV use is not considered an OWI and linked. Present OWI laws for next meeting.Falls:
 - South Central- decrease for ATVs and Falls and interested in the quality of the data for that region. Mary would like to look into it with us.
 - Age adjusted with falls (to show northcentral a little better)- March
 - Discuss data dictionary changes over those same years (change logs)- March
 - Capture differences from ICD-9 to ICD-10 (2017 change)
 - Same level falls- entering around 2018(ish)
 - Number of hospitals that are reporting changing- can we present how many hospitals are reporting with each graph and then how many had the potential
 - Correlated with data dictionary changes? Encompassing more than in 2018 (hip fractures)
 - Falls breakdowns- entering into the registry, comes down to documentation. Put in as slipping/tripping unless there is clear nursing documentation of the fall being due to ice.
 - Falls and alcohol should be considered.
 - Wisconsin higher death due to falls- is the use of blood thinners the same nationwide and in Wisconsin. Also how many are hospice?
5. Survey subgroup (*informational*)

Looking to focus the survey a bit. Utilizing a brief 2 question poll to the group to start.

Injury Prevention

Poll | 2 questions | 45 of 64 (70%) participated

1. If there were two things that the committee could provide, which 2 of the following or some other things (please list) would be most helpful to you in your injury prevention program: (Multiple Choice) *

45/45 (100%) answered
